We, **Shreeji Metals** based in Bhavnagar (Gujarat) have built a solid reputation for manufacturing & marketing metal products. Shreeji Metals has a wide range of metal products in its portfolio which are sold through a worldwide network of dealers. With customers throughout the world, we are regarded as a premier supplier, trader, and exporter of reliable, high-quality, and competitively priced products. Our product range includes copper glasses, copper-printed water pots, copper water bottles, handicraft urns, etc. These products are manufactured by trained and experienced professionals using supreme-quality materials and advanced technology.

We are one of the well-known metal products exporting companies in India and are promoted by international standards by maintaining a high standard of quality in keeping with current trends in customer demands and well as competition in today's markets.

Since our establishment in the year 2004, we are serving both overseas and domestic customers. The company maintains a good network of reputed vendors which enables us to quickly source materials for manufacturing our products. Our manufacturing facility is equipped with all the necessary machines and tools. This enables us to deliver products that match the requirements and expectations of our customers. All of our products are carefully checked by a special team prior to packaging and final delivery.

It is always our endeavor to meet the satisfaction in terms of quality as well as cost competitiveness of our customers
