ABOUT US

Crystal India is India's most trusted name in the field of Henna, Henna products and Herbal Cosmetics. We have been exporting our products to more than 20 countries worldwide and our product portfolio includes Henna, Herbal Henna, Indigo, Herbal Black and Brown Henna, Black Henna, Brown Henna, Red Henna, Yellow Henna, Burgundy Henna, tattoos, raw herbs, herbal extracts, Herbal oils & Herbal Cosmetics, Henna Kits, Henna stencils. Henna Powder is obtained from dried leaves of the Henna plant, akin to that of the tea plant. The process of obtaining the powder involves crushing the mechanically cleaned Henna dried leaves in thresher machines. Thereafter the crushed leaves are shifted to a grinding machine for transformation into the powder form. The paste of the leaves of this Henna or 'Mehandi Plant' as is popularly known, is considered to have a remedial effect on some skin diseases. In effect the brownish red colored paste/powder of these Henna leaves is used to adorn the hands and feet or as a natural hair coloring agent. The essence extracted from these leaves is aromatic hence used as a perfume. We Manufacture henna powder by collecting selected leaves from our gardens. We filter the leaves by automatic machines & then provolise to make it a fine powder. After that this powder is filtered through automatic machines. All our products confirm to **European Standards** implying strict Quality control at each stage of our operations. Further, in order to serve our customers with finest quality products we have diversified group of products.
