Founded in 1976 by Mr. Harinder Singh Patheja, Engineering Hindustan has established itself as a trusted manufacturer, supplier, exporter, trader, and service provider in the field of industrial engineering solutions. With decades of expertise, we specialize in delivering a comprehensive range of industrial clutches, brakes, gears, shafts, machine parts, and precision transmission components engineered for durability and performance.

Our advanced portfolio includes electromagnetic clutches, pneumatic and hydraulic clutches, failsafe brakes, thruster brakes, lathe machine parts, ball screws, gears, spindles, friction materials, seals, and accessories – all designed to meet the demanding requirements of diverse industries.

In addition to manufacturing, we provide specialized CNC machining services, including EDM wire machining, precision milling, turning, and lathe machining, ensuring precision-built components tailored to client specifications.

Driven by innovation and quality, Engineering Hindustan continues to deliver reliable, high-performance engineering solutions that enhance efficiency, reduce downtime, and support industrial growth worldwide.
