Gangajal RO Systems proudly presents itself as an ISO 9001:2008) certified company from Delhi (India) that is engaged in the production of a variety of water systems and equipment. We serve as a prestigious manufacturer and supplier of precision engineered water purifiers, commercial RO system, industrial Ro system, water treatment plants, water dispensers, and water coolers. We have been providing highly effective and reliable systems for water purification for over a decade now. We are an experienced group of professionals and a fast growing company, providing world class services & water treatment technologies. Our each product is designed to fulfill specific requirement of user while rendering high performance over period of time. We are an authorised channel partner of Fontus Water Ltd.

Gangajal RO Systems is a company that came into being in the year 2008 with a vision to serve an exclusive range of water treatment technologies. The company has been led by an industry veteran i.e. Mr. H. S. Chauhan (Founder), who efficiently guides the organizational resources to put constant effort for producing quality products and for achieving customers' complete satisfaction.

Quality Assurance

To maintain the quality of our products, we procure best grade products from the selected vendors in the market. Our quality auditors check each and every product on diverse parameters before the final dispatch. We strive to evolve our work methods and techniques so that the best quality products are served to end-users.
