INDUCTION FURNACE PARTS

Indo Power Engineers was conceived by two technocrats with more than 15 years experience of Induction Furnace industry in year 2005. In a short period of eight years we have supplied 850 + furnaces for various applications viz Foundries and Ingot manufacturing industry.

Indo Power engineers has country wide service set up to provide prompt and quality service that's why customers get optimum performance from our furnaces. It has its owned state of art manufacturing facilities having shop floor area of more than 25000 sq feet.

Indo Power has a well staffed R&D set up enabling it to introduce newer products with improved performance.

Indo power has been selected by customers who have been using furnaces of other makes because of total quality Commitment, higher efficiency and low cost of maintenance.

Products & Services :

- Induction Furnace Power Supply
- Induction Furnace Spare Parts
- Induction Furnace Coil
- Box Furnace
- Induction Furnace PCB Boards
- Induction Furnace Semi Conductor
- Induction Furnace Coil Insulation Materials
- Water Cooled Cables

- Induction Crucibles
- Induction Furnace Refractories
- Water Cooled Capacitors
- Mica / Fiber Sheets & Supports
- Brass Fastener
- High Frequency Transformer
- Foundry Equipments
- Technical Supports

Water Cooled Capacitors

Water Cooled Cable

DC Link Capacitors

SCR / Diode Modules

Water Cooled Cables

Furnace Selector Switch

Heat Exchanger

Refractory TOP-BOTTOM Blocks

Brass Parts

Temperature Sensors

Aluminum Side Plate

Refractory Bocks

Furnace Yoks

Deal with all type of
Induction furnace
