info@nunesinstruments.com

Established in 1975, Nunes Instruments, based in Coimbatore, Tamil Nadu, is a leading organization in Testing, Measuring, Analytical, Environmental, and Industrial Instruments. With over five decades of experience, we are known for delivering high-quality, reliable, and affordable solutions to industries, laboratories, research institutions, and educational organizations across India and abroad.

We specialize in a wide range of products including laboratory instruments, testing equipment, data loggers, calibration instruments, sensors, and automation systems. Our focus is on providing accurate, durable, and user-friendly instruments that meet international quality standards.

Nunes Instruments is an ISO 9001:2015 certified company, ensuring strict quality control, precision calibration, and prompt after-sales support. Our technical expertise and service commitment have earned us long-standing trust among clients from diverse sectors such as industrial automation, environmental monitoring, electrical testing, civil engineering, and scientific research.
