At Super Refrigeration and Thermacia Technology, we combine deep engineering expertise with modern technology to design and deliver high-quality refrigeration systems for milk chilling, dairy processing, food storage, and industrial cooling applications. Our mission is to provide superior, energy-efficient cooling solutions that meet global quality standards while addressing the diverse operational needs of Indian industries.

We also specialize in the design and manufacture of precision-engineered heat exchange and HVAC components, including:

- Air Cooled Condensers
- Cooling Coils
- Unit Coolers
- Diffusers
- Refrigeration Coils
- Radiators
- Fan Unit Coils
- Air Handling Unit (AHU) Coils
- Customized HVAC Solutions

Our products are manufactured using 3/8", 1/2", 5/8" and 7 mm copper tubes, as well as stainless steel tubes, strictly in accordance with customer specifications, application requirements, and industry standards.

Our experienced engineering and production team continually strives to understand the evolving technical and operational requirements of our clients, enabling us to deliver custom-built, efficient, and reliable refrigeration solutions. Supported by a state-of-the-art manufacturing facility and advanced production processes, we ensure high levels of precision, consistency, innovation, and performance. Each product undergoes rigorous quality inspection and testing to ensure optimal performance, long service life, and operational safety. Under the visionary leadership of Mr. Tejubhai Isardas Lalwani, Mr. Gajanand Lalwani and Vijay Lalwani Super Refrigeration and Thermacia Technology has earned strong market goodwill and long-term customer trust through ethical business practices, technical excellence, and a customer-centric approach.

We welcome the opportunity to understand your requirements and offer solutions tailored to your specific needs.

Please feel free to contact us for further discussions.

We look forward to your positive response and the possibility of working together.

Nature of Business
Manufacturers, Supplier

Number of Employees
Below 20 People Approx

Year of Establishment

Annual Turnover
Rs. 2.5 to 5 Crore Approx.

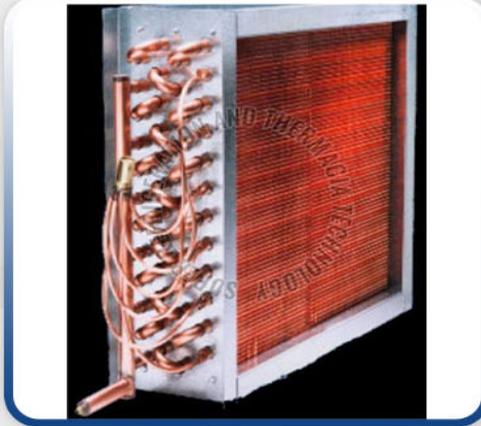

Legal Status of Firm
Partnership

Super Refrigeration

Water Cooler Coils

Deep Freezer Water Cooler Coils

Direct Expansion Cooling Coil

Water Cooler Cooling Coils

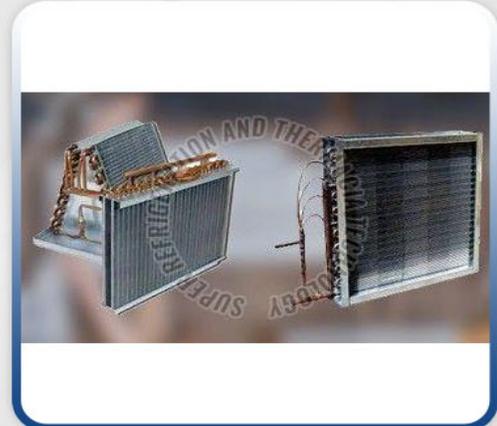

Condenser Coils

Air Cooled Chiller Coils

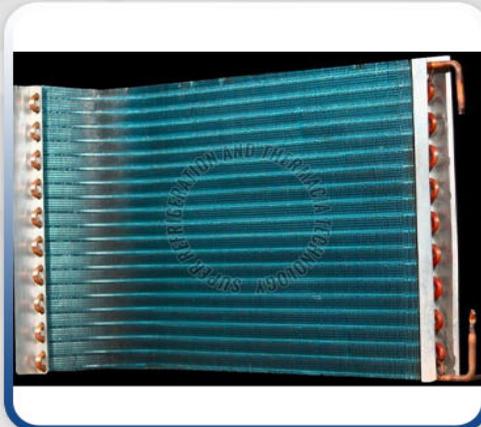

Bent Condenser Coil

Cold Room Condenser

Cold Room Evaporator Coils

Window AC Cooling Coils

Super Refrigeration

Other Coils

Fan Coil Units

Thermacia

Commercial Bottle Cooling Units

SS Commercial Bottle Cooler

Stainless Steel Commercial Bottle Cooler

Stainless Steel Horizontal Bottle Cooler

Stainless Steel Table Bottle Cooler

Stainless Steel Vertical Bottle Cooler

Thermacia

Dairy Processing Machinery

Stainless Steel Ice Cream Churner Machine

Stainless Steel Lassi Maker Machine

Bulk Milk Cooling Systems

1000 Litre Dairy Bulk Milk Cooler with Stainless Steel Tank

Industrial Bulk Milk Cooler

Milk Industry Bulk Cooler

SS Commercial Bulk Milk Cooler

SS Industrial Bulk Milk Cooler

Stainless Steel Bulk Milk Cooler

Thermacia

Bulk Milk Cooling Systems

Stainless Steel Dairy Bulk Milk Cooler

Stainless Steel Horizontal Bulk Milk Cooler

Stainless Steel Small Bulk Milk Cooler

Milk Chilling & Refrigeration Systems

1000 Litre Dairy Bulk Milk Cooler

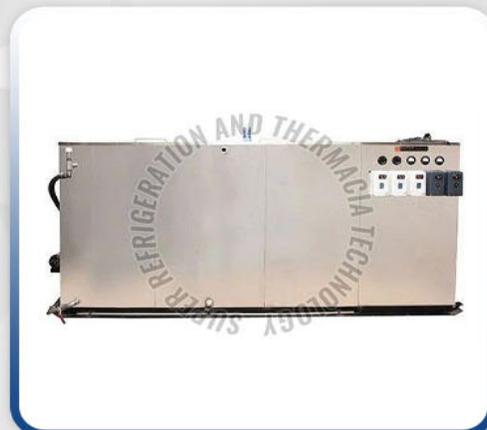

2500 Litre Horizontal Bulk Milk Cooler

4500 Litre Stainless Steel Bulk Milk Cooler

5500 Litre Stainless Steel Bulk Milk Cooler

Milk Refrigeration System

Stainless Steel Milk Cooler

Thermacia

Ice Bank Refrigeration Systems

Stainless Steel Ice Bank Tank with Inbuilt Refrigeration System

Commercial Freezing Equipment

Stainless Steel Commercial Deep Freezer

Stainless Steel Deep Freezer for Hotel Industry

Industrial Drinking Water Coolers

SS Industrial Drinking Water Cooler

Stainless Steel Institute Water Cooler

Stainless Steel Water Cooler

Super Refrigeration And Thermacia Technology
