Established in the year 2006, We "Ohaus Weighing India Private Limited" is one of the distinguished manufacturers of a huge number of Moisture Analyzers, Analytical Balance, Bench Scale, Weighing Indicator, Scout Portable Balances, Jewelry Scale and non-weighing lab equipment. With the support of our widely accessible distribution network, we are able to serve numerous industry clients by supplying international quality grade of products.

We are backed by state of the art infrastructural unit that is fully capable to produce in-line production with the large product line and streamlined manner. To manage the entire workspace we hire an adroit and capable workforce, who is able to understand client needs and put their best efforts to fulfill them. Moreover, as a quality oriented organization, we conduct multiple quality checks on various parameters to examine and ensure that products sourced from our vendors are reliable in terms of quality and performance before the final dispatch. We have furnished and spacious warehouse that includes machines based on the latest and modern technologies to arrange and store bulk quantities products. Along with this, with the aid of our expert logistic personnel, we are able to bring about clients' orders within the promised time frame by our efficient and safe transport facility.

Under the dynamic guidance of "Mr. Jawahar Thakkar (Business Manager)" our company is growing at a phenomenal pace and we have become able to exhibit our commitment towards quality by providing a modern, economical and easy to use product range.
