

Shankar
Seed Company

About Us

SHANKAR SEED COMPANY commenced its journey in the year 1998 in Faizabad (Uttar Pradesh, India). Over the years, we have crossed miles of success and established a vast client base all over the region of Faizabad. Since we have always ensured the best, our clients prefer us over others.

WAREHOUSE

With years of hard work and success, Shankar Seed Company has been successful in acquiring a warehouse of its own. Our warehouse is well-equipped with modern technology that can safeguard the freshness of groceries 24X7. We do not have to sprinkle water each time to keep vegetables fresh; we just switch on the sprinkler and it takes care of the rest of the work.

OUR CLIENT BASE

We always deliver our promises. Being a responsible manufacturer and supplier of groceries, we keep a stringent check on the quality of vegetables that are being supplied by us. We always supply fresh and infestation-free vegetables. This has helped us in winning over the confidence of our clients and establishing an extensive clientele all over Faizabad.

CHOOSE US

Choosing us can be a fruitful decision for you. There are many manufacturers and suppliers of groceries but, you have no idea about the procedure that they follow. We maintain a complete transparency with our clients and do not inject any pesticides to make our vegetables grow faster. Compromising on the health was never our motive; hence, we can prove to be a reliable name in the domain of manufacturing and supplying groceries.
