

Fuel nozzle

Nozzle divided in two part

- A) Auto Nozzle is made of alloy aluminum. It is accurate, durable and reliable, which fully meets the requirements of customers.
- B) Metering Nozzles are designed with high accuracy, convenient handling, good visibility, dual-measurement and with artistic appearance and steady function.

the product is application for fuel transfer like Diesel, Kerosene and Gasoline.

1) NG-2 (Auto nozzle)

Inlet Size : 3/4" BSP
Outlet Size : 13/16
Flow Rate : 0-60L/MIN
Color : Red

2) NG-22

Type : Digital Nozzle
Inlet Size : 1"
Outlet Size : 13/16"
Flow Rate : 0-60L/MIN
Accuracy : $\pm 0.5\%$

3) NG- 28

Type : Digital Nozzle
Inlet Size : 1"
Outlet Size : 13/16"
Flow Rate : 0-60L/MIN
Accuracy : $\pm 0.5\%$

4) NG- 29

Type : Digital Nozzle
Inlet Size : 1"
Outlet Size : 13/16"
Flow Rate : 0-60L/MIN
Accuracy : $\pm 0.5\%$
