King Kadaknath is delighted to present itself as a dynamic and energetic company from Ambala (Haryana) that recently marked its foray in the poultry business. We serve as one of the reliable manufacturers, exporters, and suppliers of Kadaknath black poultry eggs, live Kadaknath chicken and live Kadaknath chicks. After sensing the immense potential of the Indian poultry market, we decided to set up our own Kadaknath poultry farm so that the growing nationwide demand for Kadaknath chicken can be met with premium poultry products. We have a large yet hygienically maintained poultry farm facility, where Kadaknath eggs, chicks, and chicken have been bred, grown, and raised under a healthy environment.

The establishment of King Kadaknath took place in the year 2019 with a vision to tap Indian poultry market potential with hot-selling Kadaknath poultry products. The company has been gradually expanding its business to distant Indian locations and fulfilling buyers' needs with superior quality poultry products.

Infrastructure

Our state-of-the-art infrastructure is backed with technologically advanced poultry equipment that assists in the quality and quantity production of poultry products. The robust infrastructural base has played a vital role in strengthening the market position of the company.

Quality Assurance

Owing to the priority to serve quality products, various stringent quality tests are conducted under the supervision of our quality control executives. For fuller assurance of the quality, the Kadaknath eggs, chicks, and chicken are checked on various quality parameters, at different levels starting from the initial stage of processing to the final stage of dispatch. The quality checks have made us confident about the delivery of poultry products with perfection.
