

# ABOUT US

At **M/S UNITED NANOTECH PRODUCTS LIMITED**, we take pride as the leading and most preeminent manufacturers and supplier of nano technology based products. A Kolkata-based company, we are known for offering a vast range of products based on nanotechnology, some of which are mineral mixture, UV additive, nano zeolite, dry film preservative, In can preservatives, Anti – corrosive agents, paint additives, UV colour guard, cutting fluid additive, etc. Since our establishment in 2005, we have been offering and customising different types of nano-products that are manufactured using high and advanced technology.

Our premium range of nanomaterials is made to cater to various industrial sectors like polymers, cosmetics, poultry feed, cattle feed, aqua feed, paints (Both Industrial and Decorative), etc. The nanomaterials are available in various packaging in both bulk and semi bulk amounts. We also provide tailor-made synthesis and specialised packaging solutions for the products we offer.

As a proven partner focusing on providing next generation, nanotechnology based solutions and products, UNTPL works closely with its customers world-wide to develop products and solutions that will enable them to outperform their competition and stay ahead of the innovation curve. Our approach therefore is focused on new ways of combining business and technology innovations to develop and deliver nanotechnology based advanced solutions.

We work closely with customers, ranging from large corporations and new generation technology companies – to design and develop products based on their specific and application oriented needs.

## NANOPRODUCTS MANUFACTURED WITH EXTREME ACCURACY

In a bid to offer top-notch nanomaterial products to clients, we have formed relationships with various research labs and institutes. We are also equipped with an expert technical team who are always willing to cater to the vast requirements of our esteemed customers. The manufacturing process of our products begins with a meticulous screening of the process parameters, well-optimised manufacturing formulas, guidelines, and methodologies.

Different analytical tests are performed by the team of our experts for every step of nanomaterial production to ensure the products the process of synthesis is under control. The products are all manufactured in a spacious and hygiene room which in turn is equipped with state-of-the-art infrastructure and equipment.

Name of Director	Mr. Devashish Dabriwal
Name of Marketing Manager	Mr. Suddipto Ghosh
Year of Establishment	2005
Nature of Business	Manufacturer & Supplier
Number of Employees	15
Market Covered	India

# DECORATIVE PAINT INDUSTRY

**Incan Preservative**

**Dry Film Preservative for Decorative Paints**

**UV Additive**

**Paint Additive**

**Uv Color Guard**

# POULTRY FEED, CATTLE FEED, AQUA FEED INDUSTRIAL SECTOR

## Mineral Mixture

## Nano Zeolite

## Mineral Mixture

# OTHER PRODUCTS

**In Can Preservative**

**Anti Corrosive Additive for Industrial Paints**

**Polymer Additives**

## OTHER PRODUCTS

**Cutting Fluid Additive**

**Nano Silica**

**Silver Nanoparticle**

# OTHER PRODUCTS

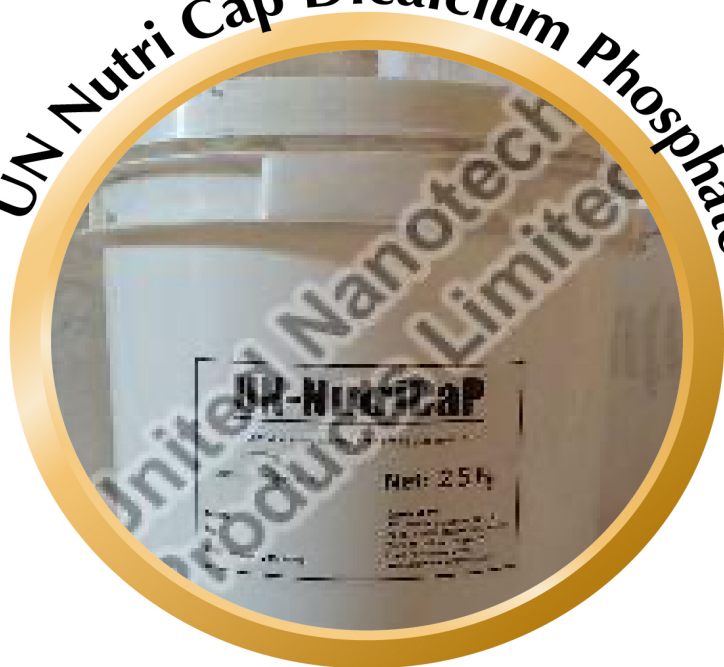

**Cerium Oxide Nanoparticle**

**Nano Alumina**

**UN Nutri Cap Dicalcium Phosphate**
