

M/S. A.A. Calibration Pvt. Ltd.

ISO/IEC 17025:2005 CERTIFICATIONS

With the quality Supplying of Pressure Gauges, including Electro Technical Instruments, Machanical Instruments & Thermal Instruments, we have achieved prestigious ISO/IEC 17025:2005 certifications.

M/s. A.A. Calibration Pvt. Ltd. has a firm commitment towards offering superior quality Calibration Services like Clamp Meter Calibration Services, Thermocouple Calibration Services, Thermal Instruments Calibration Services and Mechanical Calibration Services etc.

Our offered services are executed with the primal use of highly advanced machines. Known for in-time service deliverance with utmost transparency, these services are rendered by highly adept professionals.

ABOUT US

M/s. A.A. Calibration Pvt. Ltd. has a firm commitment towards offering superior Calibration Services such as Mechanical, Electro-Technical, Thermal, Mass, Volumetric, Torque, Hardness, Pressure, RPM & Acoustics Calibration Services etc. We use advanced Instruments with superior technical know-how to facilitate the calibration of industrial equipment. The expertise of our professionals as well as our transparency has made our name sought after for all kinds of Calibration in the industry. Which is covered in our NABL Scope.

Founded in the year 2005 at Ghaziabad, Uttar Pradesh (India), M/s. A.A. Calibration Pvt. Ltd. has the ability of carrying out calibration process. Moreover, we have employed a team of skilled professionals, who with their immense expertise of this domain have awarded us huge clientele base to serve. The organization is flourishing under the guidance of the CEO, Mr. Anand Chaurasia.

QUALITY COMMITMENT

We make use of the advanced machines for carrying out the Calibration services as per the set industrial quality standards. Laboratory is committed to total customer satisfaction through reliable, accurate, and prompt services in the field of calibration. Also, we make sure that we provide better calibration services to our customer within the time limit & prompt Calibration work performed by our Technical Team.

WHY PREFER US?

We have a R&D department in which we execute the research activities on the services including measurement and calibration of the instruments. Our team members regularly participate in the seminars and programs so as to keep themselves updated as per the changing market developments. Other factors that make us stand apart from others are:

Optimum quality services

Highly advanced labs

Complete quality assurance

Competitiveness

Timely completion

Fair business policies

Deligent professionals

Transparent business dealings

Competitive market prices

Prompt deliveries
