# OUR SERVICES

## Soda Bottle Filling Machine

We are counted amidst the prominent Manufacturers, Exporters and Suppliers of Soda Bottle Filling Machine. Advanced technology and graded material are used to construct the Soda Bottle Filling Machine. Extensively used in the beverage industry, the Soda Bottle Filling Machine automatically fills the soda bottles without any hassle and that too in a much less time. We offer rigidly constructed, smoothly working and cost effective Soda Bottle Filling Machine to the clients in customized specifications.

## Pet Capping Motorized Machine

PET Bottle Capping Machine is most ideal for capping Mineral Water Bottles, Soda / Soft Drink Bottles or any plastic bottles. The machine is of simple construction, robust and very easy to use. It consists of a 1/4 Hp motor with gear box mounted on a M. S. stand. Special capping die is fixed on output shaft of gear box. The die consists of a bush with knurling, which grips the outer of the plastic cap.

When the motor is switched on, the die rotates at a speed of 100 rpm. The cap is placed on the PET bottle to be capped. The bottle is placed on the neck holding arrangement provided. The cap rotates along with the die and is thus tightened. Once the cap is tight, the bush slips with the help of a ratchet arrangement ensuring that the plastic cap is not damaged. After the capping is over, the bottle can be removed.

## Tea & Coffee Vending Machine

We are famous of offering digitally controlled Tea & Coffee Vending Machine to the clients in different specifications. Widely used in canteens, colleges, hospitals, offices, etc., the Tea & Coffee Vending Machine we supply is simple to install, very easy to use and highly efficient. Also, to avoid bacterial growth and ensure sterilization, the Tea & Coffee Vending Machine is fitted with special systems and technology.
