

## FEATURES / BENEFITS

- Based on reflection means low emissivity (blocked heat and moisture)
- Reflects most of radiation heat (blocked 97% of radiation heat)
- Light Weight, no degradation, lasts life long
- Easy and fast installation, No spacers required
- Environment friendly - Non-toxic / non-carcinogenic
- No Wire mesh needed, saves time and money
- Cost effective and versatile.
- Easy to install
- Fibre-Free
- Class A / Class 1 Fire Rating
- Inhibits condensation
- Resists growth of fungi, mold and mildew
- Doesn't compress, collapse or disintegrate
- Lowers heating and cooling costs year-round
- Vapor and radon retarder
- Not affected by moisture or humidity
- An ISO 9001:2015 Certified Products

## APPLICATIONS

**HOME INSULATION**

**PEB INSULATION**

**ATTIC INSULATION**

**FACTORY INSULATION**

**COLD ROOM**

**EXPORT PACKING**

**CONTAINER INSULATION**

**POULTRY FARM INSULATION**

**PALLATE COVER**

**METAL BUILDING INSULATIONS**

**INSULATIVE PACKAGING**

**WAREHOUSE INSULATIONS**

**INSULATIVE BAG**

**WALL INSULATIONS**

**UNDER ROOF INSULATION MATERIALS**

**GREENHOUSE INSULATION**
