

ChemVac Process

All our products are engineered to customers' personal requirements to meet the clients' level of expectation. We are always open to suggestions and discussions with our customers for the enhancement of our products.

ABOUT US

ChemVac Process, Mumbai, Maharashtra, manufactures high precision vacuum pumps & furnaces, coater, distillation pumps and evaporators. We also manufacture various other related industrial machinery that aids the client's industrial processes.

Our Aim

At ChemVac Process, our sole aim is to increase the productivity and efficiency level of our customers so that they can get optimum production from their units. Our qualified and skilled engineers are constantly striving hard to fulfill the requirements of our clients.

We analyze and examine all the products that we manufacture to locate any defects and new requirements. The expertise of our engineers has helped us to make a name for ourselves in the industry. We always seek to help our clients with their maximum productivity that is both effective and efficient.

Our company is always doing new research and development to improvise and innovate on our existing products so that we are always at the forefront in the industry. We would always like to bring to our loyal clientele the first products in the market so that they are ahead of their rivals.

All our products are engineered to customers' personal requirements to meet the clients' level of expectation. We are always open to suggestions and discussions with our customers for the enhancement of our products. Our Manager, Mr. E. Jyothimani, is available for your valuable opinions and ideas.

OUR PRODUCTS

Short Path Distillation Plant

Type : Short Path

Certification : CE Certified

Weight : 100-1000kg

Voltage : 220V, 380V

Power : 1-5kw

Agitated Thin Film Evaporator

Type : Agitated

Material : Stainless Steel

Certification : ISI Certified

Application : Industrial

Voltage : 380V

Thin Film Drying Evaporator

Type : Thin

Material : Aluminum, Titanium

Certification : ISI Certified

Application : Industrial

Voltage : 380V

Molecular Distillation Plant

Type : Automatic

Certification : CE Certified

Weight : 4000-5000kg

Voltage : 440V

Power : 5-10kw

OUR PRODUCTS

High Vacuum Pump

Finishing : Polished

Pressure : High Pressure

Usage : Industrial

Material : Stainless Steel

Shape : Rectangular

Piston Vacuum Pump

Finishing : Polished

Pressure : High Pressure

Usage : Industrial

Material : Stainless Steel

Shape : Rectangular

Root Vacuum Pump

Finishing : Polished

Pressure : High Pressure

Usage : Industrial

Material : Stainless Steel

Shape : Rectangular

OUR PRODUCTS

Round Vacuum Pump

Finishing : Polished

Pressure : High Pressure

Usage : Industrial

Material : Stainless Steel

Shape : Round

Vacuum Furnace

Type : Automatic

Material : Aluminum, Stainless Steel

Certification : CE Certified

Application : Heating Process

Voltage : 440V

Vacuum Coater

Finishing : Polished

Pressure : High Pressure

Usage : Industrial

Type : Automatic

Material : Stainless Steel

OUR PRODUCTS

Industrial Vacuum Pumping System

Type : Automatic

Certification : CE Certified

Application : Industrial

Voltage : 380V

Power : 3-6kw

Skid Mounting Vacuum Pumping System

Type : Automatic

Certification : CE Certified

Application : Industrial

Weight : 200-300kg

Color : Grey, White

OUR PRODUCTS

KF25 Flanges

Type : KF25

Material : Metal

Color : Grey

Size : Standard

Shape : Round

Reducer Straight Flanges

Size : Standard

Type : Reducer Straight

Material : Stainless Steel

Shape : Round

Thickness : 10-20mm

OUR SERVICES

Molecular Distillation
Services

Vacuum Pump
Maintenance Services
