## About Us

**ABRABLAST EQUIPMENT COMPANY** is a well-known name from Jodhpur (Rajasthan) that is recognized for its strong foothold in the manufacture and export business. We are one of the specialized manufacturers, exporters, and suppliers of the modernistic dust collector and shot blasting machine. We are also engaged in providing services with our services being annual maintenance cost, blaster machine installation, and blaster machine repair. We have been manufacturing and marketing all types of shot blasting machine, their spares, and abrasive media.

Established in the year 2010, Abrablast Equipment Company has been successfully catering to global needs with its premium products and world-class services. Today, we are serving the patrons across India, the Middle East (Oil and Gas Industries), and Australia.

### WHAT WE OFFER

Our product range includes:

Std. Portable Abrasive/Sand Blasting Equipment: P Series is used for blasting in open areas, over MS fabricated structures towers, bridges and in closed circuit blast rooms for various applications

Std. Abrasive Blasting Cabinets (mainly three types): Direct Pressure feed Type, Suction/ Induction Feed Type, and Vapor Honing i.e. Wet Type. The equipment is featured with semi-automatic blasting cabinets, abrasive recycling, and dust collection systems as standard features for different applications like automobile component, molds, cookware, gas cylinders, rods & tubes etc.

Custom designed machines featured with automation in the job and/or Blast Gun Reciprocation or mechanical movement as many other features as per customer's requirement

Airless Blasting Machines for increased blasting production output for different applications

Blast Room Enclosures for in-house blasting of big structures with automatic intermittent & continuous media recovery & dust collection systems

Dust Collectors which are absolute efficient and versatile, mainly cartridge type & fabric bag type besides cyclone type

Paint Spray Booth / Enclosures with downdraft or semi-downdraft for the eco-friendly environment during painting operations

Other: Dustings /Fabricated Chimney /Ventilation System/Structures /Various Types of consumables.

Our facility is equipped with advanced machinery and tools, required to manufacture the shot blasting/painting/baking/ventilation equipment. We have a good team of design, production and quality control as well as the marketing department to ensure quality product at the earliest delivery.
