About Us

N. Tech Enterprises is a name that is known in the industry for its honesty, ethical practices, and sheer professionalism. We are a noteworthy manufacturer and supplier of high quality tubular welded assemblies, sheet metal parts & Customized Industrial Springs for **various OEM's like Welspun Bharuch, Messianic Mould Tools Engineers Coimbatore, Om Balajee Automobiles Ghaziabad, Meta EV Pvt. Ltd. Ahmedabad, Fujiyama EV Sonipat Haryana etc.**

Our teams ensure that the products conform to customers' specifications. We make sure that each and every product is manufactured in compliance with the prevailing standards. Our strength is our team members, innovative ideas, sound skills, ideas of re-engineering, and constant quality improvements. Besides this, we make use of genuine raw materials and maintain strict quality control and high accuracy . Customers can buy these products from us at the most competitive prices. Our distribution network is spread in various markets within India.

N. Tech Enterprises is one of the distinguished organizations that are instrumental in manufacturing and supplying the finest range 0.35 mm to 16 mm wire dia of industrial springs , U bolt , Tubular welded assemblies like Heavy duty Balancing Rod, Brake Pedals assembly & sheet metal parts e.g. Kamani plate, Foot Pedals etc. The company has been operating in the industry from its head office located in Ghaziabad (Uttar Pradesh, India).

Our Infrastructural Unit

We are supported by a widespread and well-structured infrastructural unit, which enables us to finish our consignments in a suitable timeframe. Our infrastructure is equipped with advanced machinery and tools, which are upgraded and oiled at regular intervals.

Products:- Tubular Assembly – Balancing Rod / Adjusting Rod / Tie Rod for i CAT

**Balancing Rod Fitment
(E-Rickshaw)**

The **Balancing Rod** that we manufacture is most precisely design to satisfy the requirements of our clients. We use the best quality of steel as a raw material (IS 3074 : 2005) to manufacture this balancing rod to increase its efficiency.

The **special features of Balancing rod** is its length of I-Bolt which having 60 mm & pipe internal threads upto 40 mm to better adjust & easily fitment in vehicle. We used thickness of Pipe 3.0 mm & bush thickness of I-bolt 3.5 mm.

The Balancing Rod having one side thread LH & an other side RH for better adjustment in E-Rickshaw during fitment. We manufacture of all sizes Balancing Rod 8" , 9" , 10" , 11" , 12" 16"

I –bolt Length 60 mm

N-TECH

N.TECH ENTERPRISES

(Mfg. of Tubular, Sheet Metal parts & Springs)

Products:- Tubular Assembly – Brake Pedal

- A : Pipe Thickness =1.2 mm
- B : Panja = 78 * 68 * 3 mm
- C : Bush Thickness =3.5 mm
- D : Radius R52

Heavy Panja

The brake pedal is **the pedal that you press with your foot in order to make a vehicle go slower or stop.**

When the driver puts his foot on the brake pedal, the system automatically applies the optimum pressure required to avoid hitting in front.

The pedal brake **act as switch for the driver to stop the vehicle and it is a critical part of vehicle.**

We used material as per IS 3074 : 2005 for pipe & Pedal HR grade

Products:- Springs Range

❖ We are a manufacturing of all type of Customized springs as per drawing / Sample of the required item and use genuine raw material as per customer demand i.e. spring steel, Stainless spring steel, EN 47 for heavy duty compression springs. Our price is very low for bulk order. Its depend on raw material, wire dia , outer dia & no. of turns etc.

- ❖ Brake Springs
- ❖ Brake shoe springs
- ❖ Coil springs
- ❖ Compression springs
- ❖ Custom springs
- ❖ Conical springs
- ❖ Clip springs
- ❖ Die springs
- ❖ Extensions springs
- ❖ Helical springs
- ❖ High carbon steel springs
- ❖ Hook Springs
- ❖ Heavy duty coil springs

- ❖ Industrial springs
- ❖ Lock springs
- ❖ Liquid despensar springs
- ❖ Micro Springs
- ❖ Precision coil springs
- ❖ Pen Springs
- ❖ Spring lock washer
- ❖ Switch springs
- ❖ Stainless steel springs
- ❖ Shocker Springs
- ❖ Torsion springs
- ❖ Tension springs
- ❖ Torsion cord springs
