Navi Electric trusts in serving its customer with high quality, technically advanced and in time delivery of End to End Electrical & Power solutions. We are specialised in supply of electrical transmission and distribution equipment and components to power utilities, contractors, construction companies and OEMs. Our product range includes :

- Motors & Pumps
- Substation Equipments
- Medium Voltage Switchgear
- Low Voltage Products
- Transformers

A dedicated team is tasked with maintaining the manufacture, testing and packaging of our products to ensure that the highest standards are maintained consistently. Post production inspections, loading and transportation of products and equipment is overseen by our professional logistics team to ensure that each consignment reaches its destination, on time, in good order. We place customer satisfaction first, and achieve this with great attention to detail by our team of marketing, logistics, technical and administrative staff that manage the supply chain from order to delivery. Reputable, reliable manufacturers and suppliers are selected on stringent compliance criteria to ensure quality and suitability of products for various markets. Our manufacturers comply with internationally recognised standards (e.g. IS, IEC) and are accredited with the ISO quality managements systems.
