

PHALA
AGROTECH

Phala Agrotech, headquartered in Bangalore, Karnataka, is a distinguished name in the realm of agricultural manufacture, exports and supplies. Established in 2014 under the visionary leadership of Mr. Satish Nanjundaiah, the company has emerged as a reliable manufacturer, exporter and supplier of a diverse range of premium quality agricultural products.

Phala Agrotech, headquartered in Bangalore, Karnataka, is a distinguished name in the realm of agricultural manufacture, exports and supplies. Established in 2014 under the visionary leadership of Mr. Satish Nanjundaiah, the company has emerged as a reliable manufacturer, exporter and supplier of a diverse range of premium quality agricultural products.

Specializing in Indian rice varieties, Phala Agrotech offers a spectrum of options including Bamboo Rice, Polished Basmati Rice, Black Rice, and Boiled Rice, meeting varied culinary preferences. In addition to rice, the company also deals in Indian pulses such as Bengal Gram, Black Gram, Chana Dal, and White Cowpeas, ensuring a comprehensive selection to cater to consumer needs.

Moreover, Phala Agrotech boasts an extensive collection of whole and ground spices, comprising Ajwain Seeds, Coriander Seeds, Cumin Seeds, and an array of other aromatic spices, enhancing the flavors of cuisines worldwide. The company also provides food cereals like White Quinoa Seeds, Amaranth Seeds, and Jowar Seeds, along with a range of edible flours including Wheat Flour, Rice Flour, and Ragi Flour.

Dedicated to promoting health and wellness, Phala Agrotech offers natural honey variants such as Coorg Honey, Sunflower Honey, and Multi Flora Honey, along with Jaggery Products like Jaggery Blocks and Jaggery Powder.

Committed to quality and customer satisfaction, Phala Agrotech strives to deliver excellence in every product, ensuring freshness, purity, and nutritional value. With a steadfast focus on innovation and sustainability, the company continues to expand its offerings, establishing itself as a trusted partner in the global agricultural market.
