Global Spares is a name that is deeply associated with diesel engine spare supply. Established in the year 1994, we have an experience of 29 years in this sector. Our product range includes cummin engines, control modules, cummin injectors, pumps, cummin engine components, control modules etc. We are progressing each day with the support and love of our clients.

From the very beginning, our immense dedication towards our work make us the prime choice in the entire global market. Our commitment to excellence has taken us many miles ahead of our competitors. We work hard to add value to our client's business by delivering quality products. To fulfil this goal, we assign highly trained staff. We involve them in the continual quality development procedure. All our work is done with sincerity and responsiveness.

Since our inception, we are only determined to offer excellent quality products. Our products hold extreme importance in commercial industrial manufacturing units. Our products are easy to install and use, enhanced with extensive lubrication technologies, supreme quality and high performance. Being a distinguished brand Global Spares always aims towards delivering products that are of supreme quality in their respective field.

We only deal with products that are made with different innovative techniques. This is to meet the increasing market demands. Our products are capable to offer effective results as they arrive in the market after rigorous quality checks. We include a team of expert members. They have years of experience in the industrial equipment sector.
