

VENTILER VALVES

About US

Welcome To Our world

We are proud to introduce ourself as a manufacturer and exporter of various types of industrial valves and pumps. We have been continuously working in the field of water treatment and industrial industry from the last ten years our major products are as follows:

DOSING PUMPS

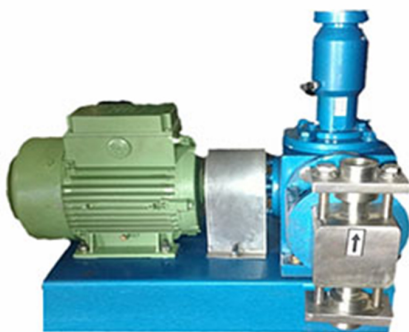

Pump Dosing system

Ventiler valves offers design & manufacturing of, Custom- Made, complete Skid mounted chemical dosing systems to suit specific needs of customers. A team of experienced and qualified engineers having thorough Knowledge of design standards is dedicated exclusively for manufacture of the same.

Pump Electronic dosing pump

Ventiler valves offers design & manufacturing of, Custom - Made, complete Skid mounted chemical dosing systems to suit specific needs of customers. A team of experienced and qualified engineers having thorough Knowledge of design standards is dedicated exclusively for manufacture of the same.

Pump Plunger dosing system

We are an unparalleled name in offering a wide range of Plunger Type Dosing Pumps. The given dosing pumps are designed by high grade material and sophisticated technology in adherence with the set norms. These dosing pumps are well known in the market for their fine finish. As well, offered dosing pumps are given in various stipulations, as per the varied needs of our esteemed customers.

DOSING PUMPS

Pump Hydraulic dosing system

We are the most trusted name in manufacturer and supplier of Hydraulic Actuated Single Diaphragm Pumps. It used to deliver corrosive liquid which not containing solid particles and similar to water in viscosity.

INDUSTRIAL VALVES

Butterfly valves

Butterfly valves

End Connection: Wafer / Double flanged suitable to 150 class, PN 10/PN 16, E & F Table
Design: Rubber molded, renewable sleeve in rubber & PTFE. Centric and off centric design.

Butterfly valves

MOC

CI, CS, Stainless steel.
Lining: EPDM, Nitrile, Silicon, Neoprene, Butyl, Viton, Hypalon. Operation: Lever, gear operated, Pneumatic rotary actuator.

Butterfly valves

Pressure ratings

PN 10, PN 16, 150 & 300 CLASS

Butterfly valves

Size range

50mm to 600mm

INDUSTRIAL VALVES

GATE VALVES GATE VALVES

End Connection: Wafer Full round body, lug, Semi lug pattern suitable to ANSI B16.5 class 150

Design: Rubber molded, renewable sleeve in rubber & PTFE. Centric and off centric design.

GATE VALVES MOC

Cast Iron, Ductile Iron Cast steel, All grades of Stainless steel & Duplex steel.

GATE VALVES Operations

Manual, Gear operated, Pneumatic & Electrical actuated.

GATE VALVES Size range

50mm to 400mm

INDUSTRIAL VALVES

Diaphragm valves GATE VALVES

End Connection: Flanged, Butt weld, Socketweld, T/c, Spigot, Screw. PN10/PN16, E & F Table

Design: Weir A pattern & KB Type Straight flow type & Aseptic. Fire Hydrant-Diaphragm type in Weir A pattern.

Rubber lining : Butyl, Ebonite, EPDM. Natural, Neoprene, NBR & Hypalon. Size range : 15mm to 350mm.

Diaphragm valves MOC

Industrial Application: Cast iron, S.G. / Ductile Iron, WCB & Forged stainless steel.

INDUSTRIAL VALVES

Valves

NON RETURN VALVES

End Connection: Wafer, Flange & lugs.
Testing standards: BS 6755 Part 1
Pressure ratings: PN10, PN16, 150, 300, 600 & 900 CLASS.

Gate valves

MOC

Cl, CS, & Stainless steel.
