

EKTA ENGINEERING

We, Ekta Engineering, were founded in the year 1995 in Sabarkantha, Gujarat (India). In this period, we have set many benchmarks in the agricultural industry under the guidance of our Owner, Mr. Ajijbhai Luhar.

Our Manufacturing Unit

The manufacturing unit of our company has all the state-of-the-art facilities that enable efficiency in production of products as per the industry-defined norms & standards. We are able to facilitate large-scale production of Cultivators, Ploughs and

Harrows within a short notice period owing to our well-equipped unit.

Our Team

We are backed by a competent team. Working dedicatedly in order to meet the expectations of clients, it is able to provide the best deals to them. The Cultivators, Ploughs and Harrows are designed and produced in tune with the stated norms & standards by it.

Why Choose Us?

It is owing to the following factors that clients prefer us over our competitors of domestic market :

- We quote nominal prices
- We provide flexible payment modes
- We promise prompt deliveries
- We follow industry-stated norms & standards

11 Tyne Rigid Cultivator

We have an in-house facility, which is used for making stocks. Laced with modern amenities, our storehouse keeps the products away from moisture, rainwater, sunlight, etc. Having captured all markets of Sabarkantha(India), our company has emerged as an acknowledged provider of this product range.

14 Disc Harrow

We understand that high-quality standards should be maintained throughout the offerings. And, for attaining this objective, we make use of superior-grade raw material for manufacturing the same. We carefully select the packaging supplies to be used for wrapping the products hence, mitigating the risk of damage posed by loading/unloading, shipping, and other external factors.

Adjustable Cultivator

We have a team of professionals who keep their vigil eyes on the entire lot that is stored in the warehouse. This unit keeps the lot free from the factors like duct, rain, sunlight, etc. We effortlessly dispatch the product basket to the clientele as we have excellent, wide connectivity and trusted shipping facilities.

Mini Disc Harrow

Staffed with latest machines and leading technology, we make certain that the material we use is as per the stated norms and meet the international standards. Striving hard to deliver the exceptional product range that includes Mini Disc Harrow, we are a prominent Supplier in the market.

Reversible Plough

We, along with our team members make all the payment procedures completely transparent that makes us a trustworthy name in the industry. Working with a pool of professionals, we are offering excellent quality product from Sabarkantha (India).
