

# BHARTIYA MANUFACTURING INDUSTRIES

*Manufacturers and suppliers of Pipes and Tubes*

Bhartiya Manufacturing Industries (BMI) was established in the year 1982, under the headship of our mentor, Mr. Rakesh Kumar. With his industrious efforts, we have achieved expertise in the manufacturing of Air Heater Tubes, Spacers & Bushes, MS Rectangular Pipes, Steel Rectangular Tubes, Oxygen Lancing Pipes, Seamless Mild Steel Pipes, Alloy Steel Pipes, Copper Pipes and Bush Rings etc. Today, we are well reckoned as one of the dominant Manufacturers and suppliers of pipes and tubes.

## Mild Steel Pipes

We provide superior quality Mild Steel Pipes that are in huge demand in the markets. Our MS ERW Pipes conform to IS-1239, IS-1161, IS-3589, IS-4270 in grades YST-210, YST-240, YST-310. Mild Steel Pipes are also available in light gauge. ERW steel pipes and tubes are used in engineering, water, gas & sewage, scaffolding, automotive industry etc. We have carved a niche as one of the predominant Mild Steel Pipes, MS ERW Pipes, Seamless Mild Steel Pipes Pipes Manufacturers and suppliers based in India.

## Precision Tubes

We offer a wide range of high quality Precision Tubes that is available in various sizes and dimensions. Precision Tubes(crc pipes) are widely used for Power and Industrial boilers, Transformers, Super heaters, Automobiles and Bicycles, Railway Electrification, Furniture and General Engineering Applications etc. Precision Tubes are also available in square and rectangle sections. We can fulfill the customer's requirement of any odd size required in round or SHS, RHS sections for samples, R & D purpose and also for bulk quantities. We have carved a niche as one of the supreme Metal Precision Tubes Manufacturers in India.

## Seamless Pipes

Seamless Pipes are produced from quality proven mild steel. MS Seamless Pipes offered by us are corrosion resistant, free from leakage and more durable. These pipes are normally used in oil & gas sector, pressure lines, rollers, spacers etc. We are well reckoned as one of the distinguished Industrial Seamless Pipes suppliers in India

## Hydraulic Tubes

We provide highly durable Hydraulic Tubes that are normally used in automation industry, hydraulic machines industry whereas boiler tubes are used in pharma industry, chemical plants or general engineering purposes. Hydraulic Tubes are manufactured from the high quality raw materials as per the national and international quality standards. We stand among the prime Hydraulic Tubes, Seamless Hydraulic Tubes, Metal Hydraulic Tubes manufacturers and Suppliers based in India.

## CDW Tubes

We provide a huge gamut of CDW Tubes that is highly acknowledged in the markets. Cold Drawn Welded Tubes are used in applications requiring high dimensional accuracy, better surface finish, superior physical properties and non standard sizes. Chemical composition of our Cold Drawn Welded Tubes can be maintained according to the customer requirement. Highly durable, our Cold Drawn Welded Tubes provide long lasting excellent performance. We have carved a niche as one of the overruling CDW Steel Tubes suppliers based in India.

## Rectangular Steel Tubes

Rectangular Steel Tubes are broadly being used in a lot of industrial units for varied purposes. Industrial Rectangular Steel Tubes are defined in terms of height, length, width, radius and welding gap. These tubes and fittings are made available in various sizes as per end user's requirement. These sections are widely used in architectural, infrastructural, industrial and general engineering purposes. These sections are confirmed to IS-4923 and can be made in YST-310 and YST-240 grade as per requirement. We are counted among the preeminent Rectangular Steel Tubes, Industrial Rectangular Steel Tubes and Steel Rectangular Tubes Suppliers in India.

## Square Tubes

Square Tubes, ERW Square Tubes, Metal Square Tubes due to their structural specification have high demand in the end-use application. ERW Square Tubes are used for the purpose of both sleek and trendy as well as ornamental fencing. They also find application in the automotive industry and are widely popular in architectural and building industry for lending that extra support coupled with strength. These sections are confirmed to IS-4923. These sections can be made available in YST-310, YST-240 grade as per requirement. We have firmly positioned ourselves as one of the overruling Metal Square Tubes manufacturers and suppliers based in India.

## Lancing Pipes

We offer high quality Lancing Pipes that are manufactured from the optimum quality raw materials. We are counted among the leading Lancing Pipes, Oxygen Lancing Pipes, MS Lancing Pipes manufacturers and suppliers based in India.

## Flute Pipes

We offer a large assortment of superior quality Flute Pipes that is widely used in various industries. Metal Flute Pipes offered by us are available in various sizes and dimensions and can be customized as per the demand of the clients. Our Industrial Flute Pipes are light in weight as well as highly durable. Our Industrial Flute Pipes are widely used in the curtain rod industry, fabrication etc. We stand among the supreme Flute Pipes, Metal Flute Pipes, Industrial Flute Pipes Manufacturers and suppliers based in India.

## Fuel Injection Pipes

The Fuel Injection Pipes, Diesel Fuel Injection Pipes, Oil Fuel Injection Pipes available with us is manufactured using seamless steel tubes, nozzles and other components. We source the raw material used for manufacturing this pipe from the renowned vendors of the industry. Our clients can avail these pipes in various dimensions as per the application.

Our comprehensive range included Brake Pipes that find application for transmitting brake oil to wheel of the vehicle. We manufacture this pipe using high quality material in compliance with the industry standards. Clients acclaim this range for its flexibility, durability and tamper resistance.

## Stainless Steel Pipes

We provide premium Stainless Steel Pipes, Stainless Steel Tubes Pipes, SS Pipes that have been engineered and manufactured to the highest quality standard. The defining quality of BMI is the ability to maintain improved manageability, optimized results when it comes to delivering products right at the first time

## GI Pipes

We provide GI Pipes which are manufactured from edge trimmed Mild Steel Strips Slitted from Hot Rolled low Carbon Steel Coil conforming to IS: 10748-1995. These edge trimmed strips are mechanically formed into required circular shape and high frequency electricity, i.e., 4,50,000 cycles/second is then used to fuse the pipe together to form a weld joint thus become homogeneous part of the completed tube. The tubes then pass through the sizing section where dimensional tolerance if any are corrected, where after they are cut to length and ends beveled before hydrostatic testing.

## Alloy Steel Pipes

Based in Chandigarh (India), we are pioneers in manufacturing and supplying Alloy Steel Pipes. Our Alloy Steel Pipes are fabricated using high-grade steel and the latest technology. Alloy Steel Pipes offered by us stand in complete compliance with industrial standards. We design Alloy Steel Pipes for energy-related applications involving oil and gas drilling. Our Alloy Steel Pipes are ideal for marine applications, nuclear power and fossil fuel power plants, transportation, petroleum plants and construction. We offer Alloy Steel Pipes, High Pressure Alloy Steel Pipes, Industrial Alloy Steel Pipes in various dimensions to suit the variegated needs of the customers.

## Copper Pipes

We are a renowned Copper Pipes Manufacturer & Supplier in Chandigarh, India. We manufacture Industrial Copper Pipes, Heavy Copper Pipes, Copper Pipes using high-quality copper under the strict vigilance of our experts as per the industrial standards. Our Copper Pipes find their application in Heating and Solar Panels. Outstanding corrosion resistance and non-rusting characteristics of Copper Pipes assure trouble-free service and maintenance of traps, valves and other devices. We offer Copper Pipes at economical prices.

## Bush Rings

We are engaged in manufacturing and supplying of Bush Rings, Metal Bush Rings, Mechanical Metal Bush Rings. We make Bush Rings using sturdy material that adds durability to their construction. We bring forth a range of optimum quality Bush Rings that are used in varied sectors of industries. We make available Bush Rings in various specifications to suit the demands of the customers. Our Bush Rings are highly appreciated and demanded in the market.
