

BACKGROUND

PT Wirama Entiti Nusantara (Wiranusa) is a trading company that is engaged in trading coal both domestically and abroad.

Wiranusa, since its establishment in 2009, we have collaborated with major coal producers in Indonesia and provide our customers with the highest standards of reliability and quality of service.

With the support of professional human resources as well as support from coal mining producers in Kalimantan with various quality coal products and the availability of various transaction options such as barges and ships, it allows Wiranusa to participate in both domestic and international coal markets and continue to strive to supply affordable energy in facing a growing demand for cleaner energy and less impact on the environment.

Now, Wiranusa will be one of as leading trading company for nickel to support Smelter Factory cause we already connected with mine consultant PT. GR (GreenLand Resources) and coorporate with nickel mine consession

Vision

Being a leading coal & nickel producer and trading company with a solid management and can satisfy the customers in terms of delivery and transportation of coal & Nickel both locally and exports, and some of the products and services we can supply.

Mission

- 1. Wiranusa strives to improve customer satisfaction with good, best service products and competitive prices.
- 2. Wiranusa strives to provide added value for all stake holders
- 3. Wiranusa strives to further develop competitive and professional Human Resources in order to establish a comprehensive relationship with vendors or business partners.
- 4. Wiranusa strives to be able to explore and develop environmentally friendly coal technology with a sophisticated product downstream concept, with a series of technological options that increase the added value of coal or nickel.

This technology is expected to reduce emissions, waste, and increase the amount of energy obtained from each ton of coal as well as increase nickel product.
