About Us

B.M. Water Meters

Manufacturers - Exporters

B.M. Water meters is India's leading and quality oriented manufacturer and Exporters company of all type water meters. We are manufacturing water meters by the brand name "BELANTO" and "KRANTI" since 1980. Company is certified with NSIC, MSME, Legal Metrology, ISO9001:2015, ISO14001:2025 and ISO45001:2018. With years of industry experience, we are committed to delivering reliable, accurate, and innovative metering products that support modern water management and sustainable resource use.

Our product portfolio includes Domestic and industrial meters, like Singlejet, Multijet bulk enclosed, Woltman type mechanical water meters, Electromagnetic flow meters, ultrasonic flow meters, smart AMR/AMI water meters, prepayment systems, and IoT-enabled metering solutions. Size availability from 15mm to 2500 mm. We are exporting and expanding our sales to Asia, Gulf, South East, Middle East, Africa countries and Europe.

All products are developed in accordance with national and international standards such as IS779, IS2373, ISO 4064, CE/MID, ensuring consistent performance, long service life, and excellent measurement accuracy. Our water meters are tested and approved by leading testing labs NABL Laboratory like FCRI, SI' Tarc, authorised BIS labs. We also offer third party inspection in our premises to agencies like SGS, BVIP, RITES, Dr Amin etc.

With state of the modern manufacturing facility, presently we are manufacturing meters with in-house designing, casting, finishing and testing. We are in-listed with most of Govt and semi govt departments for our world class of advanced production process, quality control systems, and a dedicated R&D team, we continuously improve our technologies to meet the evolving needs of residential, commercial, and industrial applications.

At B.M. WATER METERS, our mission is to help utilities and customers achieve smarter water distribution, reduce non-revenue water, and enhance operational efficiency through dependable and intelligent metering technologies.
