Welcome to the world of Extrutech Pvt Ltd. For over 32 years, the company is known as renowned manufacturer and exporter of Screw, Barrel and world-class Extrusion Machinery and post extrusion equipments. Our unwavering commitment to innovation, reliability and a customer centric approach has earned us the trust and loyalty of 5000+ esteemed customers spread across 50+ countries worldwide.

The company boasts of state-of-the-art manufacturing facility that utilizes the most sophisticated machines, modern tools and operational methods available globally to ensure that end product exceeds performance expectations. Sculptor accuracy is applied to plant with sound engineering basics through an autonomous tool room comprised of the CNC Thread Milling Machine, a 4-axis Vertical Milling Machine, a deep hole Boring Machine, a Vertical Honing Machine and a Gas Nitriding Machine. All functional departments follow the stringent quality processes and operate through digital network to ensure consistency and reliability of outcome.

## Who We Are

Extrutech is a globally recognized manufacturer and exporter of world-class extrusion machinery, including screw and barrel systems, and both pre- and post-extrusion equipment. With over three decades of expertise, we serve clients in 50+ countries, supporting a wide range of industries with our precision-engineered, high-performance solutions.

## Our Mission

Our mission is to deliver cutting-edge, dependable, and forward-thinking extrusion technologies that enable industries to thrive in today's competitive landscape. We are committed to designing and manufacturing machinery that not only meets but exceeds global standards of quality, performance, and reliability. By focusing on innovation and engineering excellence, we help our clients boost productivity, reduce operational costs, and achieve greater efficiency across their manufacturing processes. At Extrutech, we believe in building long-term value through precision, integrity, and customer-centric solutions.
