*About Us***Koneet Industries Private Limited**

Welcome to Koneet Industries Private Limited – your trusted partner in high-quality roll-forming machinery and custom roll-forming rolls. Based in Hyderabad, Telangana, we are a leading manufacturer and supplier of precision-engineered roll-forming solutions for a wide range of industries, including:

- Construction
- Agriculture
- Railways
- Automotive
- PEB Buildings
- Solar Energy

With over two decades of experience in the roll-forming industry, our commitment to delivering innovative, reliable, and custom-tailored solutions has made us a preferred choice for businesses across India and beyond. Whether you need roll-forming machinery or custom-designed rolls, Koneet Industries is here to help you achieve superior productivity and operational efficiency.

Our Mission

At Koneet Industries, our mission is to deliver top-quality roll-forming machinery and custom roll solutions that:

- Maximize productivity
- Minimize downtime
- Enhance overall operational efficiency

We aim to become India's leading roll-forming machinery manufacturer and expand our global presence by consistently providing superior products and services.

Our Products and Services**Roll-Forming Machines**

We offer a wide range of roll-forming machines designed for various industrial applications. Each machine is built for:

- Precision
- Durability
- High productivity

Our machines are ideal for industries such as construction, automotive, and more—capable of handling even the most complex roll-forming tasks.

Custom Roll-Forming Rolls

Our in-house expertise allows us to design and manufacture custom roll-forming rolls that meet specific profile requirements. We use premium-grade materials like EN31 steel to ensure:

- Long-lasting performance
- High precision
- Efficiency

Customized Solutions

We specialize in developing customized roll-forming machinery and rolls based on your unique requirements—whether it's a complex profile or a special material need, we've got you covered.

Industries We Serve**Construction**

From roofing sheets to structural components, our roll-forming solutions cater to the demanding needs of the construction sector.

Automotive

We supply high-precision roll-forming machines and rolls to produce quality components for vehicles.

Agriculture

Our equipment is used to manufacture robust and durable profiles for agricultural machinery and equipment.

PEB Buildings

We provide roll-forming machines that create high-strength profiles essential for pre-engineered building structures.

Our rolls and machines meet the rigorous safety and durability standards required in the railway industry.

Solar Energy

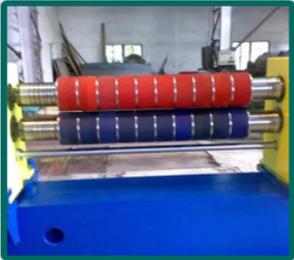

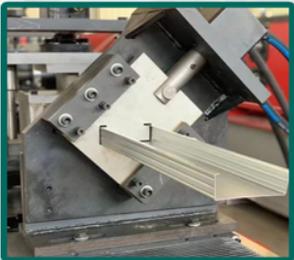

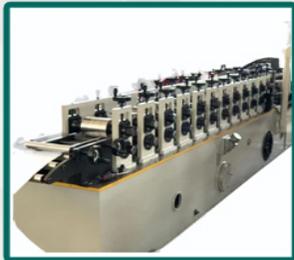

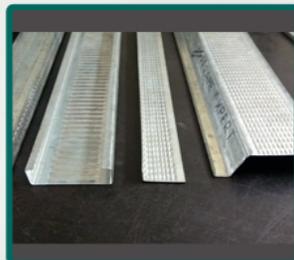

We manufacture roll-forming machines for solar mounting systems, supporting the growing renewable energy sector.

Commitment to Quality

Quality is the cornerstone of everything we do at Koneet Industries. Our skilled professionals ensure every product meets the highest standards in:

- Accuracy
- Durability
- Performance

From raw material selection to final inspection, we maintain strict quality control procedures to deliver products that consistently exceed customer expectations.
