Crown Minerals & Chemicals has emerged to an eminent status for manufacturing, supplying and exporting the best-in-class assortment of Talc Powder, Soap Stone, China Clay, Calcite Powder, Dolomite Powder, and other such items. The company conducts its line of operations from the headquarters situated in Jaipur, Rajasthan. Owing to our well-managed business activities, we are smoothly functioning in domestic as well as international markets. We can match any specification of our product. We have earned a huge clientele base in India and Export.

## **Quality Consciousness**

We are steadfast in reaching the highest degree of quality in our product range as well as services. This is ensured by maintaining intricate quality checks and supervisions during the various stages of procurement, production, packaging, storage, and delivery thereby handling a flawless product to the party. The overall process is made possible owing to the presence of keen & experienced staff and ultra-edge infrastructure. Our Minerals is regularly analyzed for elements which are of importance to our customers. Our laboratories are well equipped for various aspects of powder characterization. Powder and Lumps properties are measured regularly depending upon the parameters required by our customers.

## **Client Satisfaction**

By offering the best, we have been able to build a huge client base. Our seasoned team communicates and researches to identify the discerning clients expectations and the prevailing market trends. This helps us in our endeavors to enhance our value thereby deriving total client satisfaction. We have a competent team of R&D personnel who can understand the customers requirement, thereby enabling us to recommend the right product to our customers. We are always keen to interact with our customers to produce better products for them progressively. Our Product is regularly analyzed for elements which are of importance to our customers.
