About Us

We are the facilitators SBCE Chiller Pvt. Ltd. for all the mushroom cultivators. With the team of observant eyes, we anticipated the rise of mushroom cultivating and decided to give a few more wings to our cultivators. With the ultimate knowledge of mushroom cultivation, we came with the latest technology, tunnels, and machines, for facilitating mushroom cultivation in Pan India.

We are the facilitators for all the mushroom cultivators. With the team of observant eyes, we anticipated the rise of mushroom cultivating and decided to give a few more wings to our cultivators. With the ultimate knowledge of mushroom cultivation, we came with the latest technology, tunnels, and machines, for facilitating mushroom cultivation in Pan India.

With the changing trends, when the mushrooms are making a way to the most exotic plates, there should be an extra punch that could support mushrooms as they need something extra. We are the ones that give these cultivators something extra. We give the best of the risen concrete platforms, with a perfect environment for mushroom growth.

Our compost machines reduce the efforts of cultivators giving them the way to all the year-round cultivation instead of satisfying just with the seasonal harvesting. Our machines are a boom for the cultivators.

We not only facilitate mushroom cultivation but also are an expert in the fawning procedure. We know how the fawning needs some extra care when it comes to the setting of the temperature. Our cooling machines laced with international technology complete that requirement too. We can boast of the most functional machines in the market.

We take care of fawning of the mushrooms, harvesting, and even of the packing of the exotic. We give the perfect cooling and boiling vessel facilities if you want to preserve your mushrooms for the long logistics. We are ready for that too. Our perfect warehouse gives you that temperature and other facilities as well as accessories to pack your products so they reach customers at the right stage. After all, we know how important it is to satisfy the customers. So, we take care that mushrooms are always in the edible state even after leaving our stores. We are a proud team of best facilitators with delightful cultivators.

● Our Vision

We take care of fawning of the mushrooms, harvesting, and even of the packing of the exotic. We give the perfect cooling and boiling vessel facilities if you want to preserve your mushrooms for the long logistics. We are ready for that too.

● Our Mission

Our perfect warehouse gives you that temperature and other facilities as well as accessories to pack your products so they reach customers at the right stage. After all, we know how important it is to satisfy the customers.
