Established in 2017 and headquartered in Gurugram, Haryana, IoTechWorld Avigation Pvt. Ltd. is a global leader in the innovation, design, and manufacturing of advanced agriculture drones, drone parts, and accessories. We are committed to revolutionizing modern farming practices through cutting-edge aerial solutions that improve efficiency, productivity, and sustainability.

Our portfolio includes state-of-the-art agriculture drones for crop spraying, monitoring, and precision farming, as well as a wide range of high-quality drone components and accessories. Every product is engineered with precision, tested under rigorous conditions, and complies with international safety and performance standards. This ensures farmers, agri-businesses, and drone operators receive reliable, high-performing solutions tailored to diverse agricultural needs.

As a Manufacturer, Exporter, and Supplier, we serve clients worldwide, offering not only advanced technology but also comprehensive after-sales support, training, and maintenance services. Our customer-centric approach, combined with robust R&D capabilities, allows us to continuously innovate and adapt to emerging trends in the drone and agri-tech sector.

With a mission to empower farmers and agricultural enterprises, IoTechWorld Avigation integrates drone technology with sustainable practices, enabling smarter resource management, reduced labor costs, and enhanced crop yields.

Our vision is to be at the forefront of the global agricultural drone revolution, delivering solutions that bridge the gap between technology and agriculture, for a more efficient and sustainable future.
