

# Ajit Enterprises

An ISO 9001 : 2008 Certified Company

Capitalizing on the vast experience, Ajit Enterprises has gained a strong foothold in the domain of Industrial Machines and Equipment. Empowered with technically advanced manufacturing practices and a qualified team, we have brought high performance CNC Pipe Bending Machine, Special Purpose Machine, Test Rigs, Injection Molding Dies, and Aluminium Die Casting Moulds. Our factory automation and energy saving consultancy services have been proved highly advantageous to the various industries. With the low maintenance costs, our Testing Machines and Equipment are perfect for various industrial usages. We provide complete automation solutions for process & mass production industry using robotics & automatic material handling equipment & synchronization of various processes. Today, we have firmly positioned ourselves as one of the distinguished Test Rigs Manufacturers based in India.

## ABOUT OUR COMPANY

Ajit Enterprises was incepted in the year 1999 under the benevolent guidance of Mr. Harinder Singh Saini, the CEO of the company. He has profound and depth knowledge in the field of machines. We are one of the prominent Manufacturers and Suppliers of CNC Pipe Bending Machine, Special Purpose Machine, Test Rigs, Injection Molding Dies, and Aluminium Die Casting Moulds. We have also achieved specialization for providing effective Low Cost Machine & Factory Automation as well as Energy Saving Consultancy Services.

### Infrastructure :

We boast of a sound infrastructural base that is furnished with advanced technology CNC machines and equipment. With the assistance of these latest technology machines, we develop superior quality Industrial Machines and Dies & Molds. To improve the quality of the Industrial Machines and Equipment, we continually upgrade the production machines. Besides, we also have well equipped Design Department with Licensed latest Design software.

### Team :

We have highly skilled team of experts which has a "can do" approach combined with a commitment to engineering excellence. Owing to the immense experience of an enthusiastic team, we present high efficacy Industrial Machines and Equipment. Our talented team of professionals is well versed with its respective field, thus provide impeccable quality Industrial Machines and Equipment. With a sole motto to provide utmost level of satisfaction to the clients, our team has been continuously working.

### Customer Satisfaction :

We specially design our products to meet demands of the today's industry. We always strive to optimize the clients' satisfaction level by providing them the best quality products. We have attracted a huge number of clients based all over the India. Last but not the least; we always endeavor to develop and maintain the reliance and credibility among our esteemed clients.

## **CNC Pipe Bending Machine**

The company offers superior quality NC/CNC Pipe Bending Machine in the market. The Hydraulic Pipe Bending Machine made available by us is extensively used for bending and molding pipes in desired shapes. They are manufactured as per the designs demanded by the clients according to their requirement. The best quality raw materials are used in its production so that the machine gives a long lasting trouble free functional life. They are very user friendly and easy to operate. Besides, we are one of the most renowned Pipe Bending Machine Manufacturers in India.

### **We Make**

- Single axis Pipe Bending Machines
- Two axis Pipe Bending Machines
- Three axis Pipe Bending Machines

**To enquire about the desired product(s), just check the box and then click "Inquiry Now" button which is provided below.**

## Special Purpose Machine

We have uniquely positioned ourselves as one of the leading Customized Special Purpose Machine Manufacturers and Suppliers in India. Our Special Purpose Machines are widely used in the manufacturing of piston, piston rings and auto parts. Ajit Enterprises specializes in the designing & manufacturing of Special Purpose Machines, such as, PLC, CNC, Hydraulics & Pneumatic control Automatic Machines. We can design & build Special Purpose Machine for multitude of tasks in a manufacturing unit.

### Benefits

- Increases productivity
- Improves quality
- Lowers investment

**The quality of the production is difficult to maintain by conventional machines or manual processes because of the following reasons**

**PRODUCTS**  
WE DEALS IN

## Test Rigs

The company brings in the finest quality **Test Rigs** such as Seat Assembly, Recliner, Seat Slider, Lock catcher etc. in the marketplace. Our Hydraulic Test Rigs are used at length to check the performance of auto spare parts. All the measuring instruments of our automotive test rigs are high quality digital type. These Test Rigs are well equipped with extremely convoluted measurement data acquisition systems. They are known for their accurate and heavy-duty performance for moment durability test, endurance test & environment testing. They are very durable and operation friendly in nature. Besides, we are reckoned as one of the most eminent Endurance Test Rigs Manufacturers and Suppliers in India.

## Injection Molding Dies

**Injection Moulding Dies** that we manufacture and supply are utilized in numerous industries for varied applications. Owing to their excellent features such as dimensional accuracy and durability, these Injection Moulding Dies find their extensive application in automobile, electrical and plastic industries among others. We make use of quality raw material to manufacture these Injection Moulding Dies that ensures their optimum quality and enhanced durability.

### Features

- Dimensionally accurate
- Long functional life
- Ability to withstand pressure

## Aluminium Die Casting Moulds

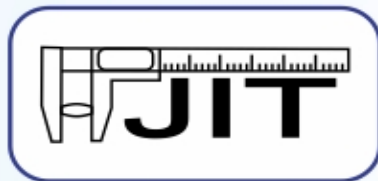

Situated in Patiala (Punjab), we at, Ajit Enterprises are engaged in manufacturing and supplying **Aluminium Die Casting Moulds**. We manufacture these Aluminium Die Casting Moulds using quality best quality Hot Die Steel H13 that make us assure their high quality. The clients can avail the Aluminium Die Casting Moulds from us in varied specifications to cater to the diverse requirements. We offer the Aluminium Die Casting Moulds in the market at reasonable price.

### **Demanded For**

- Dimensional accuracy
- Long functional life
- Ability to withstand pressure
