

SHINE

WOOD PLAST

ABOUT US

SHINE WOOD PLAST is one of the acknowledged business entities from Rajkot (Gujarat) that is engaged in the production of PVC-based and WPC-based boards and sheet. The company is known as a successful manufacturer and supplier of premium quality PVC foam boards, PVC foam sheets, WPC foam boards, and WPC foam sheets. Our products like boards and sheets are manufactured using advanced techniques and hi-tech equipment to ensure that they not only look great but also render life-long performance. A panel of skilled people oversees the designing process of our sheets and boards so that the finished products look breathtaking.

SHINE WOOD PLAST was established in the year 2018 when the enterprising founder laid the foundation stone of the organization. Ever since its establishment, the company never compromised with the product quality as well as efforts required to ensure buyers' complete satisfaction through product offering and customer support.

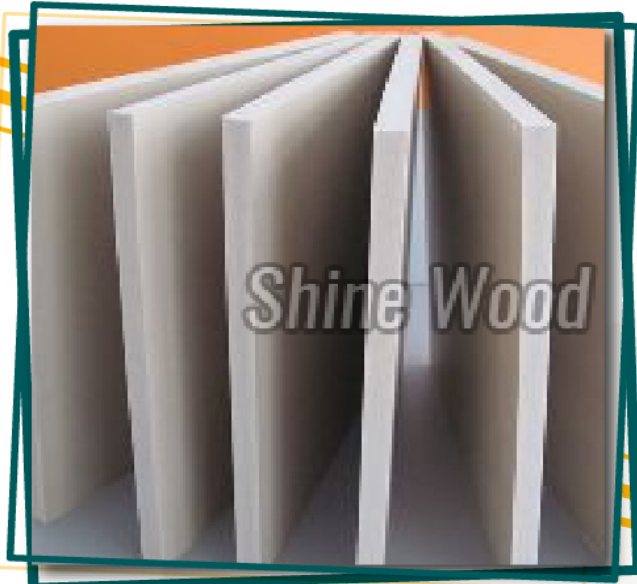

INFRASTRUCTURE

The company has a spacious manufacturing unit which is divided into different departments for managing various operations of the company. We are well-equipped with world-class facilities and high-tech automatic and semi-automatic machines. Also, the company has a clean and hygienic warehouse to store our products before their dispatch.

WHY US

- The company is devoted to providing the best quality products with impeccable customer support
- We follow ethical business practices and we provide the buyers with the finest products
- We specialize in ensuring the timely delivery of our superior quality products
- We have a wide network through which we meet the demands of our esteemed customers
