

SURYA TRADERS

Surya Traders is an accredited manufacturer and supplier of Cotton Bale, Maize Seeds, Raw Turmeric, Turmeric Finger, and Turmeric Powder. We operate across India.

2019

ABOUT US

SURYA TRADERS is an accredited manufacturer and supplier of Cotton Bale, Maize Seeds, Raw Turmeric, Turmeric Finger, and Turmeric Powder. We operate across India. The management of Surya Traders comprises industry experts, who work together to deliver the best-in-class product line to the clients. Our focus on maintaining high quality standards, strong client relationships and building trust provide us upper edge amid the leading market players. When you get associated with us, streamlined trade operations and fair-priced deals are assured.

SURYA TRADERS is a flourishing name, that got established with a motive to become a trusted trade partner of the clients. With two years of industry experience, we started our company operations in 2019. The company is based in Bagalkot (Karnataka, India) and we cater to retail & bulk product demands of the clients across the nation.

We have access to the large quantity. We can supply > 100 tones in a week if needed. We can also address both with transport and with out transport as well. We are also flexible on the commercial models based on the status of the buyers.

We have also noticed the yield in the field depends on the quality of soil, water and fertilizers what we use. We also noticed that , we can not do much on fertilizers and soil at this point but we can address the water. We noticed with number of tests that if the water is hard , then the yield is 30 to 40% lesser than soft water. In fact we tried out this in our field by using the machine which converts hard water into soft water and this in turn increases the yield min 20 to 30% based on the soil and fertilizer what we use. We are also dealing with supply of these machines, installations and services of these machines.

We also noticed that some of the farmers are not using the right seeds and also there is no insurance for the product what we grow in the field. We have the required permission and license to deal with this as well. We have office set up and people to look after this selling seeds, buying back the products at the right price what has been agreed and also insurance if the crop go wrong due to the reasons as well.

PROFESSIONAL EXCELLENCE

At Surya Exporters, our motto is to fulfill varied demands of the clients with ease. The company has all the in-house facilities necessary to process products in a flawless manner. Besides, we have appointed a group of individuals, who work dedicatedly to attain the set organizational goals. Being a responsible name, we conduct regular sessions to train our workforce with the modern work methods and industry trends.
