

VIKRAM

VIKRAM PROTIENS PVT. LTD.

ABOUT US

Vikram Protiens Pvt. Ltd. is one of the established business enterprises from Jaipur (Rajasthan) that has been offering premium quality animal feed products. The company is recognized as a reliable manufacturer and supplier of Cow Feed, Buffalo Feeds, Camel Feed, Food Grains, Bran and chana churi, which are made with optimum quality animal feed materials under controlled conditions. Our cattle feed products are manufactured keeping the nutritional requirement of bovines in mind so that they get complete food for their growth. We also supply buffalo feeds, cattle feeds, and chana churi in good quality packaging materials so as to keep contaminants and pests away.

Vidwan Kanoongo, the company CEO, laid the foundation of Vikram Protiens Pvt. Ltd. in the year 1974. Since then, the company has strengthened its market position by serving high-grade animal feed products at competitive market prices.

Vikram Protiens Pvt. Ltd. established two Cattle Feed Plants each at Jothwara and Vishwakarma Industrial Area, to meet out the demand of Cattle Feed of farmers around the globe. The production capacity of these plants was increased from 100 MTD to 250 MTD recently, keeping into mind the rise in demand of cattle feed.

Benefits :

- Increase in milk production
- Improvement in health of animal
- Improvement in fat content of milk
- Regularization of reproductive cycle and animal coming to heat at regular interval
- Improvement in Immunity of animal
- Prevention from metabolic diseases and deficiency syndromes

Our Vision

To increase the profitability and commercial viability of dairy farming by ensuring a regular supply of nutritionally balanced & economically viable cattle feed throughout the year.

Infrastructure

We are supported by well-developed infrastructure which is inclusive of manufacturing unit, packaging unit, capacious warehouse, etc. We regularly invest in the development of our infrastructural facilities to keep ourselves abreast with the market trends. We are also open to technology investments backed by long term purchase arrangements.

10% Crude Protein Camel Feed

Packing Type : HDPP Bags, Jute Bags

Packing Size : 20 / 30 / 40 / 50 Kgs

Mode of Payment : 50% advance while order placement, 50% LC

Supply Capacity : 1500 MT weekly

Crude Protein (min) : 10%

12% Crude Protein Camel Feed

Crude Protein (min) : 12%

Crude Fiber (max) : 9 to 12%

Calcium (Min) : 1%

Phosphorous (Min) : 1%

Crude Fat (min) : 3%

14% Crude Protein Camel Feed

Crude Protein (min) : 14%

Crude Fiber (max) : 8 to 11%

Calcium (Min) : 1%

Phosphorous (Min) : 1%

Crude Fat (min) : 3%

Maharaja Super Cow Feed

Crude Protein (min) : 22 to 24%

Crude Fiber (max) : 9 to 10%

Calcium (Min) : 1%

Phosphorous (Min) : 1%

Crude Fat (min) : 4%

Maharaja Surya Cow Feed

Crude Protein (min) : 18 to 20%

Crude Fiber (max) : 9 to 10%

Calcium (Min) : 1%

Phosphorous (Min) : 1%

Crude Fat (min) : 3%

Maharaja Dugdhpari Cow Feed

Crude Protein (min) : 14 to 16%

Crude Fiber (max) : 8 to 9%

Calcium (Min) : 1%

Phosphorous (Min) : 1%

Crude Fat (min) : 3%

Maharaja Mohan Bhog Cow Feed

Crude Protein (min) : 10 to 14%

Crude Fiber (max) : 7 to 9%

Calcium (Min) : 1%

Phosphorous (Min) : 1%

Crude Fat (min) : 3%

Maharaja Raj Bhog Cow Feed

Crude Protein (min) : 10 to 12%

Crude Fiber (max) : 7 to 9%

Calcium (Min) : 1%

Phosphorous (Min) : 1%

Crude Fat (min) : 2%

Cow is the most important ruminant animal having one stomach with four compartments. It is known for regurgitating and re-chewing their food known as cud chewing. The cud is then swallowed again and further digested by specialized microorganisms in the rumen. These microbes are primarily responsible for decomposing cellulose and other carbohydrates into volatile fatty acids cattle use as their primary metabolic fuel.

Cattle's have the ability to produce large quantities of milk if served with a proper diet. Depending on the market condition, they are labeled as a dairy cattle or beef cattle. Vikram Protiens Pvt. Ltd. manufactures feed for dairy industry and slaughtering industry by essentially fulfilling the nutrimental requirement as per the application.

Maharaja Super Buffalo Feed

Crude Protein (min) : 22 to 24%

Crude Fiber (max) : 9 to 10%

Calcium (Min) : 1%

Phosphorous (Min) : 1%

Crude Fat (min) : 4%

Maharaja Surya Buffalo Feed

Crude Protein (min) : 18 to 20%

Crude Fiber (max) : 9 to 10%

Calcium (Min) : 1%
