Maan Chemical is a prime Supplier of Sodium Acetate, Anionic Sulphate, Potassium Chloride Powder and Sodium Acetate Trihydrate Powder. We provide stable and high-quality chemicals widely used in different applications and sectors. These products are formulated using quality-tested base materials to ensure to provide the best results. To ensure high-quality standards of chemicals, we ensure to provide these products after strictly testing on varied factors. These chemicals are tested for purity, chemical composition, shelf-life, etc. These industrial chemicals are procured from the trusted vendors of the industry. We provide these industrial chemicals in standardized and tailored-made packaging according to the different needs of the clients.

Maan Chemical is located at Ankleshwar (Gujarat, India). Under the guidance of Mr. Hinkesh Raval, the Owner, the company has been offering high-quality and pure Ammonium Sulphate Powder, Blue Copper Sulphate Powder, Potassium Sulphate Crystal, Sodium Sulphate Powder, Ammonium Sulphate Crystal, etc. We provide excellent quality chemicals in bulk for catering to the needs of various demands.

### **Our Team**

Our hard-working, adroit and skilled professionals have been working hard day and night. They are required on the basis of skills, experience and knowledge after conducting various selection procedures. Our team of professionals includes:

Skilled labor  
Procurement agents  
Warehousing experts

Packaging executives  
Quality controllers  
Logistics professionals
