

Magnetic Drive Pump

MAGNETIC SEAL LESS PUMP FOR HIGH TEMPERATURE

Magnetic Drive Pump

WHY CHOOSE US ?

One of our ethics is to only sell a quality product that is proven and that we believe in. We're certainly not only a pump manufacturing company out there, but we effort to be the best. We based our service on a foundation of skills, expertise, and experience in a cost-effective manner.

malhar is a magnificent company that produces numerous types of centrifugal pumps as well as spare parts in the highest quality.

Now, in the market, we have introduced a new product whose motor and pump are close coupled in a convenient and compact design for quick installation in limited space.

FEATURES :

- Specific magnets were used for long-lasting pumps.
- Pumps manufactured in accordance with DIN/EN/ISO performance standards.
- Superior silicone grease must be used to prevent stuck incidents between all mating parts.
- Designed to protect against overloading.
- Quick disassemble and reassemble

BENEFITS :

- It has been designed to be compact in order to take up less space.
- The level of vibration and noise should be negligible.
- Magnet power provides precise efficiency with minimal slippage.
- During the dispatch process, least manpower was used.
- All rotating components are connected by a common shaft.

APPLICATIONS :

- Alkali and caustic chemical pumping.
- For use in the industrial, firefighting, and building construction industries.
- Oils for heat transfer
- Fluid circulation of radioactive, toxic, and acidic liquids.
- Recycling and waste management

SPECIFICATIONS :

Flow upto	:	max. 165 lpm or max. 43.7 US gpm
Head upto	:	max. 19 m or 62 ft
Max. Motor power	:	0.75 kW or 1 HP
Magnets	:	Ferrite/Rare Earth/Specially Designed
Temperature Range	:	-35°C to +200°C
Impeller Type	:	Semi Open
Drive	:	Close Couple
Flange Type	:	Threaded BSP
Material Grade	:	SS304, SS316, SS316L, Hastelloy, Cast Iron and Duplex.

TECHNICAL DATA TABLE :

PUMP MODEL	BORE		MAX CAPACITY	MAX HEAD	MOTOR	PUMP WEIGHT
	SUCTION	DISCHARGE				
	mm	mm	l/min	m	kW/HP	kg
MDCP-3/4" X 3/4"- 4"	20	20	102	10	0.37/0.5	18
MDCP-3/4" X 3/4"- 4.5"	20	20	125	13.5	0.55/0.75	20
MDCP-1" X 3/4"- 5"	25	20	165	19	0.75/1	31

MDCP MODEL :

CONSTRUCTION WITH GRADE

PART NO.	DESCRIPTION	GRADE
1	Casing	SS304 / SS304L / SS316 / SS316L DUPLEX ALLOY / HASTELLOY
2	Impeller	
3	Casing Cover	
4	Shaft	SS304 / SS316 / SS316L
5	Bearing Bush	METALLIC CAR / SIC / TC
6	Can	SS316L / HAST-C
7	Inner Magnet Assembly	FERRITE & SPECIAL MAGNET
8	Outer Magnet	FERRITE & SPECIAL MAGNET
9	Magnet Carrier	CI / WPS
10	Adapter	CI / WPS
11	Base Frame	MS
12	Flameproof & Non-flameproof Motor	AS PER REQUIREMENT
	Gasket	PTFE / CFT
	Fasteners	SS304 / SS316 / SS316L
