

PORTABLE DIESEL ENGINE DRIVEN PUMP

APPLICATION

- Petroleum, Oil and gas,
- Refineries, various depots / terminals and Installation
- various offshore Installations.
- Hotels, Shopping and Housing complexes all over the country.
- Commercial Complexes
- High rise Buildings
- Airports and ports
- Oil and Gas on shore and off shore platforms
- Power stations and transformer stations
- Petroleum and petrochemical complexes
- Warehouses
- Manufacturing and chemical Industry

TYPE - CENTRIFUGAL HORIZONTAL HIGH HEAD MONOBLOCK PUMP

Model	MDP-80HH4					
Suction & Discharge Dia mm(inch)	80(3")X80(3")					
HEAD (MTR)	0	10	20	40	50	60
FLOW (M3/HR)	41	39	36	25	14	0

MODEL	F-500
Type	Single Cyl, Vertical, 4 Stroke, Air Cooled, D.I. Diesel Engine
Starting System	Re-coil / Electric Start
Displacement	499 cc
Weight	77 kg
Bore X Storke(MM)	92X75
Rated RPM- Speed	3000
Rated Output -kw/hp	7.5/10
Fuel Consumption-gm/hp/hr	300
Fuel Tank Capacity- Ltr.	5.5
Lube Oil Capacity(ltr)	1.65
