COMPANY PROFILE

Successfully running operations with the planned approaches, we, Refcast Corporation, a Ahmedabad (Gujarat, India) based company, which is setting benchmarks of growth in the market. The reputed company works with passion with support of its appointed multi-talented workers to deliver reliable equipment, components and Refractory Elements, material for iron, steel, Copper, Aluminum & Zinc foundries. Be it by the products or practices, we delight our respected customers in all the means. Further, we have big plans of business expansion and for the same, a specific branch office is maintained by us. From that office, we are successfully fulfilling the requirements of the customers and also executing several tasks without any troubles.
