

Swapnil Minerals

Swapnil Minerals Export Co. is one of the most prominent names in the market of South 24 Parganas. We are actively engaged in exporting and supplying superior quality china clay powder, feldspar powder, talc powder, bentonite powder and wollastonite powder.

ABOUT US

Swapnil Minerals Export Co. is one of the most prominent names in the market of South 24 Parganas. We are actively engaged in exporting and supplying superior quality china clay powder, feldspar powder, talc powder, bentonite powder and wollastonite powder. The china clay powder that we make available is widely used for providing adequate gloss on the grades of coated paper. The feldspar powder that we offer is majorly used in glassmaking, ceramics, and to some extent as a filler and extender in paint, plastics, and rubber. We also provide the best quality talc powder that is largely appreciated for keeping skin dry and helping to prevent rashes. Moreover, our expertise in providing bentonite powder and wollastonite powder has allowed us to gain a huge clientele all over South 24 Parganas.

Swapnil Minerals Export Co. is a South 24 Parganas (West Bengal, India) based company, which is operating in the industry since 2017. The company has been able to become a notable name in the industry in a quick time.

Our Clientele

We feel proud to announce that we have gained a decent clientele in the last three years. Several clients in West Bengal and other states of India have approached us many times to purchase our products. We also export our products to various international markets.

The Team

With the support of a team of highly dedicated professionals, it has become possible for us to cater to various requirements of the clients. These professionals are specialized in managing all the company operations well.

PRODUCTS

Feldspar comprises of different minerals like potassium, alumina, calcium and silicates.

The mineralogical composition of different feldspars can be expressed in terms of the ternary system which includes the following:

Orthoclase (KAlSi_3O_8), Albite ($\text{NaAlSi}_3\text{O}_8$) and Anorthite ($\text{CaAl}_2\text{Si}_2\text{O}_8$).

Feldspar are chemically alumina-silicates. There are several types of feldspar available in India. Most deposits offer Sodium feldspar and Potassium feldspar.

Swapnil Minerals provide a comprehensive range of Potash Feldspar & Sodium Feldspar to our clients as per their requirement. Our range is highly acclaimed by our clients for smooth finishing and quality. They are accessed at cost effective price. These are highly acclaimed by our clients for unique features such as user friendly nature, dimensional accuracy and smooth finishing.

- ◆ Free from impurities
- ◆ Good color
- ◆ High strength
- ◆ High Alumina
- ◆ Required sizing
- ◆ Light in weight

Applications : Feldspar is a common raw material used in glass making, ceramics, and to some extent as a filler and extender in paint, plastics, and rubber.

As fluxing agent in ceramics- tiles, sanitary tableware, and glazes

As strength enhancing in glass and glass wool
As transparency enhancer in hollow glass, flat glass

As fillers in paints, plasters, insulation

PRODUCTS

◆ POTASH FELDSPAR POWDER

SPECIFICATIONS

Business Type	Manufacturer, Exporter, Supplier, Trader, Importer
Application	Industrial
Color	White
Form	Powder
Whiteness	80-90%
Particle Size	200 mesh, 325 mesh
Pack Type	PP Bags

◆ SODIUM FELDSPAR POWDER

SPECIFICATIONS

Business Type	Manufacturer, Exporter, Supplier, Trader, Importer
Application	Industrial
Color	White
Form	Powder
Packaging Type	Plastic Bags
Whiteness	50% Plus
Molar mass	84.007 g/mol

PRODUCTS

◆ CHINA CLAY POWDER

SPECIFICATIONS

Business Type	Manufacturer, Exporter, Trader
Appearance	White fine powder
Bulk Density	0.5 +/- 0.1
True Density	2.6 +/- 0.2
Oil Absorption	25 +/- 5
L.O.I	Below 13
Size	100,200,300,325, 400 and 500 Mesh

◆ TALC POWDER

SPECIFICATIONS

Business Type	Manufacturer, Exporter, Supplier, Trader, Importer
Purity	99%
Form	Powder
Packaging Type	Laminated Jute Bags
Packaging size	25-50Kg
Category	Silicate Mineral
Formula	$Mg_3Si_4O_{10}(OH)_2$, Magnesium Silicate Hydroxide

PRODUCTS

◆ BENTONITE POWDER

SPECIFICATIONS

Business Type	Manufacturer, Exporter, Supplier, Trader, Importer
Color	Brown
Form	Powder
Packaging Type	Plastic Bags, Poly Bags
Features	Moisture Proof, Safe To Use
Whiteness	0-50%
Packaging size	25kg, 50kg

◆ WOLLASTONITE POWDER

SPECIFICATIONS

Business Type	Manufacturer, Exporter, Supplier, Trader, Importer
Silica (SiO ₂)	48-51
Ferric Oxide (Fe ₂ O ₃)	0.5
Calcium Oxide (CaO)	43-47
Loss on Ignation	1.5
Moisture	0.4 %
H.P Value	7 – 9
