Maruti Brass Products is a leading manufacturer and exporter of precision metal components from India, specializing in brass, copper, steel, and aluminium parts. With over 30 years of experience, we provide high-quality CNC machined metal components, brass fittings, valves, inserts, and custom metal solutions for industries including plumbing, refrigeration, air conditioning, electrical, and gas systems worldwide.

Equipped with advanced CNC machinery, precision engineering, and strict quality control, we ensure every component meets international standards for durability, accuracy, and reliability. Our focus on custom metal fabrication, sustainable manufacturing, and on-time delivery helps us serve clients across 80+ countries consistently.— “Crafting Perfection in Every Metal Component.”

Leadership Team

We always work with a great number of people.

Mission & Vision

Maruti Brass Products is a leading manufacturer and exporter of precision brass components, committed to innovation, quality, and sustainability. Our mission is to deliver world-class CNC brass fittings, with a vision to consistently export to 80+ countries worldwide.— “Precision in Every Part, Excellence in Every Connection.”

Our Vision

To be recognized as a global leader in brass component manufacturing, known for our craftsmanship, customer-centric approach, and contribution to environmentally responsible production.

Established In 1995

Maruti Brass Products was founded in 1995 by Mr. Champaklal Sanghani with a modest workshop of just 600 sq. ft. and a few basic machines—one manual cutting machine, one slotting machine, and four drilling machines. In those early days, the company manufactured brass hardware goods such as hinges and tower bolts, supplying reliable brass fittings for construction and hardware markets.

Certifications

Our certifications reflect our dedication to excellence, compliance, and continuous improvement.

2 Inch Bulkhead Male Connector

Aluminium Flange

Aluminum Steel Ring
