

SHYAM METALS

Shyam Metals is a name that is synonymous with care, honesty, and transparency. We are a well-noted firm that is supplying high quality EC Grade Aluminium Wire Rod. These wire rods are procured directly from our highly reliable and quality certified vendors in the industry. We send our procurement agents to the vendors' inventory to ensure that all the products are made in compliance with the set patterns and industrial norms. Besides this, we thrive to maintain the excellent quality standards as per global requirements.

Shyam Metals is a name that is synonymous with care, honesty, and transparency. We are a well-noted firm that is supplying high quality EC Grade Aluminium Wire Rod. These wire rods are procured directly from our highly reliable and quality certified vendors in the industry. We send our procurement agents to the vendors' inventory to ensure that all the products are made in compliance with the set patterns and industrial norms. Besides this, we thrive to maintain the excellent quality standards as per global requirements.

We make sure that the entire packaging process is undertaken by professionals under the supervision of our quality auditors. We sell these wire rods in the markets at industry leading prices. Our network of distribution is expanded to several industries across India.

Shyam Metals is a name that is enlisted amongst the acknowledged organizations that are involved in import and supplying the best quality EC Grade Aluminium Wire Rod. The company has been situated in Sonipat (Haryana, India). It is incorporated in the year 2019. Under the headship of Mr. Vikas Sharma (Owner), we are able to cater to our clientele in the most efficient manner.

Our Warehousing Unit

We have a spacious and well-structured warehousing unit, which enables us to store the wire rods in a suitable atmosphere. We keep the packaged products under great conditions to ensure that our customers get the best product quality.

Distribution of Products

We are able to distribute the wire rods in different markets owing to our meticulous logistics department. They dispatch the products in well-maintained vehicles.
