- We assure to deliver high-quality products at economical rates
- We undertake demands for tailored packaging
- We facilitate clients to pay through different modes –online and offline
- We operate with a nationwide network of dealers and distributors
- We provide round-the-clock professional support

Anti Puncture Tyre Sealant

Puncture Protective Gel is a viscous tyre sealant which is applied to new tyres as well as punctured tyre to protect them from punctures.

- Puncture Protective Gel is a proactive treatment that is applied to a tyre to automatically, instantaneously and permanently repair punctures.
- They basically work as a fluid / gel that repair any punctures by blocking the exit of air reducing the chances of being stranded with a flat tyre.
- It works for both "Tubeless" and "Tube Type"

Tyre Gel
