Neria Live Enterprise is a well-known name in the agro-industry. We are providing our clients with excellent quality agro plants such as aglaonema plant, Singapore Ixora plant, Pink bougainvillea plant, khokan plant, Mahogany plant, Rudraksha plant, Moha neem plant, etc. Our company also provides fruit plants such as Hybrid papaya plant, custard apple, avocado, etc at Market Competitive rates. We are a manufacturer, supplier and exporter of agro-products and have built a brand name for ourselves over the past years.

Our company understands clients' requirements and provides natural and cost-effective agro-based solutions. We are providing premium quality agro-products that are pure, and have a longer shelf life. Our products are free from pesticides and are safe for human consumption.

Distribution Network

We are meeting the highest standards in quality, durability, and shelf life in our agro products. Our hardworking team ensures prompt and quick delivery of urgent orders globally at our client's request. We also ensure that quality products reach the client's destinations.

Why us

We are a customer-centric company frequently aiming to provide outstanding customer support. We accept various payment options, and our products are packaged into different packaging sizes as per our clientele request. We ensure the quality and packaging of agro-products. We also ensure that no pesticide is added to our products. We have quality control checks before dispatching quality products to the customers.
