

# Synergy UV Metallising

Synergy UV Metallising is one of the popular business enterprises from Vadodara (Gujarat) that have an active presence in the glass product industry of India.

## ABOUT US

**SYNERGY UV METALLISING** is one of the popular business enterprises from Vadodara (Gujarat) that have an active presence in the glass product industry of India. The company is known as a firmly established supplier of exquisite glass products, empty glass bottles, coated glass bottles, nail polish glass bottles, perfume glass bottles, frosted glass bottles, cosmetic glass bottles, cosmetic glass jars, and food glass jars. We also excel in providing different kinds of glass bottle services, which include glass bottle printing services, glass bottle designing services, transparent glass bottle coating services, and colored glass bottle coating services. All these products are procured from trusted vendors in the market, who supply us these products after checking their quality thoroughly for crack, leakage, design, color, and certain other essential parameters.

Synergy UV Metallising was established in the year 2007 when its enterprising Owner i.e. Mr. Yogesh Parmar decided to mark a strong foray in the domain of supplying glass products. The company works with a motto of serving customers with quality tested and quality approved products, and we achieve the same with the help of our quality control facility and competent manpower.

## WHY US

Quality focused approach that motivates us to meet the domain's standards  
Consistent compliance with the government implemented 'Fair Trade Policies'  
A rigorous focus on delivering customers' requested orders on time  
Dedication towards maintaining transparency while trading with clients

## MISSION

The mission of our Gujarat based entity is to become the most reputed and successful name in the industry. On our journey to the top, we plan to provide high gratification to our clients and win their unwavering loyalty with our hard work.
