

SNM ENTERPRISE

MANUFACTURER & SUPPLIER

TRANSFORMER PARTS

ABOUT US

SNM Enterprise is over two decades old manufacturing company from Kolkata (West Bengal) that has been delighting the buyers in the power sector with its superior range of transformer parts. The company serves as a prestigious manufacturer and supplier of the finest transformer part range, which includes transformer build up strip cores, transformer rectangular cores, transformer toroidal cores, transformer EI core lamination, transformer CRGO mitered lamination, and transformer CRGO slit coils. All our transformer parts are designed and developed in compliance with the OEM guidelines so that they can aptly fit in the respective assembly.

The company has been led by Sheikh Noor Mohammad, who serves it in the capacity of Founder of SNM Enterprise. Sheikh Noor Mohammad laid the foundation stone of the organization back in the year 2000, and since then he guided organizational resources to make remarkable efforts to satisfy buyers with premium products and world-class services.

Quality Assurance

We are committed to adhering to the most stringent standards and quality. Since we obtain the raw materials for products from reliable sources, we make sure to channelize them as per the standard operating procedures to optimize production. Our in-house quality standards are quite high to maintain the supremacy and trust of our brand. Moreover, our top-class quality controllers are there to make sure that product quality is never compromised.

Vendors

Associated with distinguished vendors of the industry, we have been able to come up with the best range of transformer parts. The vendors, we obtained materials from, are certified manufacturers, who bring forth innovative quality approved range as per the specifications provided by us.
