ABOUT US

Acme Concrete Mixers Pvt Ltd is an established name in the building construction equipment manufacturing industry. We are counted among the paramount manufacturers and suppliers of Concrete Mobile Batching Machine, Concrete Batching Plants, Concrete Mixers, Sand Screening Machine, Sand Screening Plant, Sand Washing Machine, Bar Cutting Machine, Bar Bending Machine, Electronic Weigh Batchers, Tower Crane Concrete Bucket, Earth Compactor, Slab Trolley With Wheel Barrows and Construction Chemicals. We have received appreciation from the valuable clients for excellent quality and outstanding performance of the equipment manufactured by us. Ethical business policies, customer centric approach, robust infrastructural base and ardent team of professionals form the pillars of the organization. We ensure to meet the specific requisites of the clients and attain the top most level of customer satisfaction. Our competence to deliver equipment within the stipulated time frame has made us a prominent business entity in the market. We endeavor to maintain cordial relations with the clients in the long run. Acme Concrete Mixers Pvt Ltd is a one stop shop for availing all kinds of building construction equipment. The extensive range of building construction equipment available with us has gained appreciation from the clients for their excellent performance and durability. Duly tested on various parameters of quality and excellence, the construction equipment we offer have found their application in building construction industry. We have carved a niche for ourselves as one of the prime manufacturers and suppliers of building construction equipment in India.

Our company, Acme Concrete Mixers Pvt. Ltd. came into being in the year 1997, under the motivational guidance of Mr. A.Q. Inamdar and Mr. George Mathew, the owner of the company. His commendable managerial skills and sharp business acumen have assisted us in strengthening the foothold in the market. Due to his vast experience, we are able to meet the specific demands of the clients with precision.

Infrastructure

State-of-the-art infrastructural base forms the backbone of the organization. The technically advanced production unit is fully equipped with all the latest machinery required for manufacturing excellent performing construction equipment. We also have sound logistics support for timely delivery of equipment at every corner of the country.

Team

Team of qualified and experienced personnel is one of the major strengths of the company that has assisted us in touching the apex of success. Panel of professional engineers is appointed for supervising the entire production process. Adroit workers ensure to manufacture equipment that can meet the diverse requirements of construction industry.

Quality policy

Being a quality conscious organization, we ensure to maintain high standards of quality in the equipment manufactured by us. We have developed stringent quality control mechanism for testing equipment on various parameters of excellence before making delivery to the clients.
