OUR STRENGTH

We have upright setup facilities and well knowledgeable associates to design and produce our products in high-quality international standard as per the customer obligation and expectations.

OUR INFRASTRUCTURE

We are functioning with imported ultra-modern fully automatic soft flow machines, for dyeing. The fabrics are dried with Multiflow fully Automatic dyeing machine with volume production ability. Electronic colour measurement and dyeing certify even colouring. The fabric is then treated through relaxing drier, making sure that the fabric is soft handled and made even softer by the end of this process.

WHY US?

- We are having our facilities
- We can speed up all the process, to complete bulk order
- We are using high-quality raw material
- Offering multiple ranges of prices and products
