Mission

To create a highest level of quality product and customer satisfaction with take care of environment. Become a global leader in our sector and distribute that benefits to our stake holder.

Vision

Unstoppable continuous growth.

Our Sister Concern

Vishat Industries is proud to be known as a flagship company of a highly renowned, Vishat Group, that holds a powerful belief in Commitment to High-quality and Superior Service. Journey of Vishat group was started back in 1990 with establishment of its first manufacturing unit in Surat and since then we are meeting the needs of customers, providing superior quality of fabric. The corporate office and production facility of the company is located in Vadod Bamroli Road, Surat.

Infrastructure & Manufacturing Unit

Creating an ineffaceable impression in the tough market competition is not at all difficult with the assistance of a well-equipped infrastructure. Knowing that the customers have a strong preference for companies that own the best infrastructure facilities, we have established a state-of-the-art infrastructure, which is spread into a wide area of 4,500 square feet. Our infrastructure is equipped with all the advanced facilities that are required for offering best in class range of fabric to the customers. Our manufacturing unit is installed with advanced German and Korean machineries and having weaving capacity of around 4,50,000 meters per month. Our infrastructure is segregated into several units such as designing, production, quality checking, warehousing and more which helps in smooth execution of tasks. We are glad to have installed advanced and robust machinery in all the units as it provides smooth and safe operations, helping us fulfill customers' requirements on time.

Our Team

We have been backed by team of experts, which is considered as backbone of our organisation. Our team is composed of the people who are dedicated, skilled, efficient and have been designated to the correct roles as per their abilities. Our team understands the demands of the customers and always ensure that their expectations are correctly met by manufacturing the products accordingly.

Quality Assurance

We always believe that quality is the expression of our apparels. So, it is emphasized in all the procedures and we conduct several tests on the raw material as well as finished products to ensure the flawless quality.
