Gammy Health Care is Roorkee, Uttarakhand (India) based company. Piyush Mandhar is the CEO and founder of the company who holds B. pharma and M. pharma (pharmaceutics) degree. The company was established in August 2016 with the motive to provide a rich variety of Animal Healthcare Products and veterinary medicines.

We are engaged in manufacturing, and supplying a wide range of medicines and animal /cattle feed supplements. Our mission is to provide services and value-added solutions for customer delight without compromising ethics and principals.

Own manufacturing units enable Gammy Health Care to offer customer-specific formulations and quality Feed Supplements. This is what makes our products the best and popular in the domestic market. Furthermore, our products have received the mandatory quality certification and thus, are safe to be used on animals. To provide good health and to treat various diseases of different animals these medicines and Healthcare Products are used.

Our Products

Gammy Healthcare is one of the leading companies who manufacture, trade and supply a wide range of V Veterinary Medicines & Animal/ Cattle Feed Supplement by keeping the health and well-being of animals in mind. From marketing analysis to research & development to manufacturing and distribution, our experts share their knowledge with consumers to always keep them updated and help them to stay one step ahead. Whether you are looking for G – uterine, G – min gold, or any other animal product, you will get everything under the one roof at the affordable price. A customer can explore various products on our website and choose according to the need and requirement

Quality

We feel pride when a customer appreciates us for providing the superior quality products. Our motto is to manufacture and offer top quality products, taking into consideration their wide application. The team executes stringent quality checks right from the first stage of manufacturing to the last stage of distribution. If you are curious about animal health and would like to learn more about how switching to a quality food can help in the growth of your animals, feel free to contact our experts. They will not only guide you, but also recommend you right medicine or animal supplements, according to the need and requirement.

Our Setup

Latest technology and modern equipment in the fast pace world are what keep us unique and different from our competitors. In every industry, adapting new technology in the early stage is the key to create a win-win situation. We are fully-equipped with ultra-modern equipment as well as dedicated and qualified professionals that help us achieve optimum results. Our team of professionals make sure to offer excellent services without sacrificing the safety and quality. Therefore, we prefer high-quality equipment to accomplish every task. In the end, customer satisfaction and animal well-being are our topmost priority and to make it possible we pledge to remain updated with the modern technology.
